

25101434D

HOUSE BILL NO. 1666

Offered January 13, 2025

Prefiled January 3, 2025

A *BILL to amend and reenact § 46.2-882.1 of the Code of Virginia, relating to photo speed monitoring devices; location.*

Patrons—Jones and Laufer

Referred to Committee on Counties, Cities and Towns

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-882.1 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-882.1. Use of photo speed monitoring devices in highway work zones, school crossing zones, high-risk intersection segments, and certain pedestrian corridors; civil penalty.

A. For the purposes of this section:

"High-risk intersection segment" means any highway or portion thereof located not more than 1,000 feet from the limits of the property of a school that is part of or adjacent to an intersection containing a marked crosswalk that is identified in the manner provided in this section as one in which a traffic fatality has occurred since January 1, 2014.

"Highway work zone" has the same meaning ascribed to it in § 46.2-878.1.

"Photo speed monitoring device" means equipment that uses radar or LIDAR-based speed detection and produces one or more photographs, microphotographs, videotapes, or other recorded images of vehicles.

"School crossing zone" has the same meaning ascribed to it in § 46.2-873.

"Vehicle speed violation" means a violation of this title resulting from the operation of a vehicle in excess of the speed limit, including a violation of § 46.2-873 or 46.2-878.1.

B. *I.* A state or local law-enforcement agency may place and operate a photo speed monitoring device in school crossing zones for the purposes of recording violations of § 46.2-873 and in highway work zones for the purposes of recording violations of § 46.2-878.1.

A state or local law-enforcement agency may place and operate a photo speed monitoring device at a high-risk intersection segment located within the locality for the purpose of recording vehicle speed violations, provided that such law-enforcement agency certifies that a traffic fatality has occurred since January 1, 2014, in such segment.

No law-enforcement agency shall place and operate a photo speed monitoring device in a location other than a school crossing zone, highway work zone, or high-risk intersection segment without the approval by ordinance of the local governing body as provided in subdivision 2.

2. *The governing body of any locality may provide by ordinance for the placement and operation of a photo speed monitoring device by the law-enforcement agency of such locality for the purposes of recording vehicle speed violations on any highway in such locality (i) that is located in a high-injury network as designated by the Department of Transportation or (ii) where such placement is supported by Department of Transportation speed or vehicle incident data as determined by such governing body.*

C. The operator of a vehicle shall be liable for a monetary civil penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a photo speed monitoring device, to be traveling at speeds of at least 10 miles per hour above the posted speed limit in the zone monitored by the photo speed monitoring device. Such civil penalty shall not exceed \$100, and any prosecution shall be instituted and conducted in the same manner as prosecution for traffic infractions. Civil penalties collected under this section resulting from a summons issued by a local law-enforcement officer shall be paid to the locality in which such violation occurred. Civil penalties collected under this section resulting from a summons issued by a law-enforcement officer employed by the Department of State Police shall be paid into the Literary Fund. However, all civil penalties collected under this section resulting from a summons issued based on evidence obtained from a photo speed monitoring device placed and operated at a high-risk intersection segment shall be paid to the Commonwealth Transportation Board to be used for the Virginia Highway Safety Improvement Program established pursuant to § 33.2-373.

D. If a photo speed monitoring device is used, proof of a vehicle speed violation shall be evidenced by information obtained from such device. A certificate, or a facsimile thereof, sworn to or affirmed by a law-enforcement officer, based upon inspection of photographs, microphotographs, videotapes, or other recorded images produced by a photo speed monitoring device, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotapes, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such vehicle speed violation.

59 E. In the prosecution for a vehicle speed violation in which a summons was issued by mail, prima facie
60 evidence that the vehicle described in the summons issued pursuant to this section was operated in a manner
61 constituting a vehicle speed violation, together with proof that the defendant was at the time of such violation
62 the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such
63 owner, lessee, or renter of the vehicle was the person who committed the violation. Such presumption shall
64 be rebutted if the owner, lessee, or renter of the vehicle (i) files an affidavit by regular mail with the clerk of
65 the general district court that he was not the operator of the vehicle at the time of the alleged violation and
66 provides the name and address of the person who was operating the vehicle at the time of the alleged
67 violation or (ii) testifies in open court under oath that he was not the operator of the vehicle at the time of the
68 alleged violation and provides the name and address of the person who was operating the vehicle at the time
69 of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report,
70 showing that the vehicle had been reported to the police as stolen prior to the time of the alleged vehicle
71 speed violation, is presented, prior to the return date established on the summons issued pursuant to this
72 section, to the court adjudicating the alleged violation.

73 F. Imposition of a penalty pursuant to this section by mailing a summons shall not be deemed a conviction
74 as an operator and shall not be made part of the operating record of the person upon whom such liability is
75 imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage.
76 However, if a law-enforcement officer uses a photo speed monitoring device to record a vehicle speed
77 violation and personally issues a summons at the time of the violation, the conviction that results shall be
78 made a part of such driver's driving record and used for insurance purposes in the provision of motor vehicle
79 insurance coverage.

80 G. A summons for a vehicle speed violation issued by mail pursuant to this section may be executed
81 pursuant to § 19.2-76.2. Notwithstanding the provisions of § 19.2-76, a summons issued by mail pursuant to
82 this section may be executed by mailing by first-class mail a copy thereof to the owner, lessee, or renter of
83 the vehicle. In the case of a vehicle owner, the copy shall be mailed to the address contained in the records of
84 or accessible to the Department. In the case of a vehicle lessee or renter, the copy shall be mailed to the
85 address contained in the records of the lessor or renter. Every such mailing shall include, in addition to the
86 summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of
87 the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection E
88 and (ii) instructions for filing such affidavit, including the address to which the affidavit is to be sent. If the
89 summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section,
90 the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of
91 a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. If
92 the summons is issued to an owner, lessee, or renter of a vehicle with a registration outside the
93 Commonwealth and such person fails to appear on the date of return set out in the summons mailed pursuant
94 to this section, the summons will be eligible for all legal collections activities. Any summons executed for a
95 vehicle speed violation issued pursuant to this section shall provide to the person summoned at least 30 days
96 from the mailing of the summons to inspect information collected by a photo speed monitoring device in
97 connection with the violation. If the *locality or* law-enforcement agency that was operating the photo speed
98 monitoring device does not execute a summons for a vehicle speed violation issued pursuant to this section
99 within 30 days from the date of the violation, all information collected pertaining to that suspected violation
100 shall be purged within 60 days from the date of the violation.

101 H. A private vendor may enter into an agreement with a law-enforcement agency to be compensated for
102 providing a photo speed monitoring device and all related support services, including consulting, operations,
103 and administration. However, only a law-enforcement officer may swear to or affirm the certificate required
104 by this section. Any such agreement for compensation shall be based on the value of the goods and services
105 provided, not on the number of violations paid or monetary penalties imposed. Any private vendor
106 contracting with a law-enforcement agency pursuant to this section may enter into an agreement with the
107 Department, in accordance with the provisions of subdivision B 31 of § 46.2-208, to obtain vehicle owner
108 information regarding the registered owners of vehicles that committed a vehicle speed violation. Any such
109 information provided to such private vendor shall be protected in a database.

110 I. Information collected by a photo speed monitoring device operated pursuant to this section shall be
111 limited exclusively to that information that is necessary for the enforcement of vehicle speed violations.
112 Information provided to the operator of a photo speed monitoring device shall be protected in a database and
113 used only for enforcement of vehicle speed violations and enforcement against individuals who violate the
114 provisions of this section. Notwithstanding any other provision of law, all photographs, microphotographs,
115 videotapes, or other recorded images collected by a photo speed monitoring device shall be used exclusively
116 for enforcing vehicle speed violations and shall not be (i) open to the public; (ii) sold or used for sales,
117 solicitation, or marketing purposes; (iii) disclosed to any other entity except as may be necessary for the
118 enforcement of a vehicle speed violation or to a vehicle owner or operator as part of a challenge to the
119 violation; or (iv) used in a court in a pending action or proceeding unless the action or proceeding relates to a

120 vehicle speed violation or a violation of this section, or such information is requested upon order from a court
121 of competent jurisdiction. Information collected under this section pertaining to a specific violation shall be
122 purged and not retained later than 60 days after the collection of any civil penalties. Any *locality or*
123 law-enforcement agency using photo speed monitoring devices shall annually certify compliance with this
124 section and make all records pertaining to such system available for inspection and audit by the
125 Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or his designee. Any
126 person who discloses personal information in violation of the provisions of this subsection shall be subject to
127 a civil penalty of \$1,000 per disclosure.

128 J. A conspicuous sign shall be placed within 1,000 feet of any school crossing zone, highway work zone,
129 or high-risk intersection segment at which a photo speed monitoring device is used, indicating the use of the
130 device. *At least two conspicuous signs shall be placed within 1,000 feet of any other location at which a*
131 *photo speed monitoring device is used, indicating the use of the device.* There ~~shall be~~ is a rebuttable
132 presumption that such ~~sign~~ *signage* was in place at the time of the commission of the *vehicle* speed ~~limit~~
133 violation.

134 K. Any *locality or* state or local law-enforcement agency that places and operates a photo speed
135 monitoring device pursuant to the provisions of this section shall report to the Department of State Police, in
136 a format to be determined by the Department of State Police, by January 15 of each year on the number of
137 traffic violations prosecuted, the number of successful prosecutions, and the total amount of monetary civil
138 penalties collected. The Department of State Police shall aggregate such information and report it to the
139 General Assembly by February 15 of each year.
