HOUSE BILL NO. 1830

Offered January 13, 2025

Prefiled January 6, 2025

A BILL to amend and reenact §§ 22.1-296 and 51.1-142.2 of the Code of Virginia, relating to school board policies; unpaid educational leave for certain employee association officers; purchase of service credit.

Patron—Simonds

Referred to Committee on Education

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-296 and 51.1-142.2 of the Code of Virginia are amended and reenacted as follows:

§ 22.1-296. Payment of employees; reimbursement for private transportation; certain sick leave policies; unpaid educational leave for certain employee association officers.

A. Each school board shall provide for the payment of teachers, principals, assistant principals, and other employees monthly, semimonthly, or biweekly, as may be determined by the school board.

However, school boards setting the school calendar so that the first day students are required to attend occurs prior to August 15 shall establish a payment schedule to ensure that all contract personnel are compensated for time worked within the first month of employment.

B. All school board employees may be reimbursed for private transportation at a rate not to exceed that which is authorized for persons traveling on state business in accordance with § 2.2-2825. Whatever rate is paid, however, shall be the same for school board members and employees of the board.

C. Each local school board shall adopt policies providing for leave without pay for school board employees with debilitating or life-threatening illness or injury, without regard to the employee's length of service with the school board.

D. Each school board shall adopt a policy that requires the school board to approve unpaid educational leave for school board employees who are state employee association officers and for at least two school board employees who are local employee association officers for a maximum of four years per officer. Employee association officers approved for such leave may purchase service credit with the Virginia Retirement System pursuant to § 51.1-142.2 for such period of leave.

§ 51.1-142.2. Prior service or membership credit for certain members; service credit for accumulated sick leave.

Certain members may purchase credit for service as provided in this section.

A. 1. Any member in service may purchase service credit from the following categories of service or leave: (i) leave of absence for educational purposes that was previously approved by the member's employer, including unpaid educational leave as set forth in subsection D of § 22.1-296; (ii) leave of absence for a serious health condition of the member or of an immediate family member, all as defined in the Family and Medical Leave Act of 1993, 29 U.S.C. § 2601 et seq., as amended, and previously certified by the member's employer; (iii) up to one year of service credit per occurrence of leave for any unpaid leave of absence due to the birth, adoption, or death of a qualifying child, as defined in § 51.1-500; (iv) service as a full-time employee of another state, a public school system of another state, or a political subdivision of the Commonwealth or another state, as certified by such state, public school system, or political subdivision; (v) full-time service of a political subdivision of this state not credited to the member under an agreement as provided for in § 51.1-143.1, as certified by such political subdivision; (vi) full-time civilian service of the United States; (vii) full-time service at a private institution of higher education if the private institution is merged with a public institution of higher education and graduates of the private institution are then issued new degrees from the public institution; or (viii) any period of time when the member was employed part time or in a wage position by a participating employer and not otherwise eligible to participate in the retirement system because the member was not an employee as defined in § 51.1-124.3. However, no member in service shall be allowed to purchase more than a total of four years of service credit pursuant to this subdivision.

2. In addition to the service credit that may be purchased under subdivision 1, any member in service may purchase up to four years of service credit for prior active duty military service in the armed forces of the United States, provided that the discharge from a period of active duty status with the armed forces was not dishonorable.

3. The service credit to be credited to a member under this subsection shall be calculated at the ratio of one year, or portion thereof, of service credit to one year, or portion thereof, of service purchased, except for employment service purchased under clause (viii) of subdivision 1, which shall be calculated at the ratio of one month of service credit for each 173 hours of service as certified by the employer.

INTRODUCED

HB1830

59 For each year or portion thereof to be credited at the time of purchase under this subsection, the member
60 shall pay the approximate normal cost of the retirement plan under which the member is covered at the time
61 of such purchase, as determined by the Board in its sole discretion. If the member does not purchase, or enter
62 into a purchase of service credit contract for, the service made available in this subsection within the first 24
63 months of the member's active service following his first date of hire or the final day of any applicable leave
64 of absence, as applicable, then, for each year or portion thereof to be credited at the time of purchase, the
65 member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during the 24
66 months following his first date of hire or the final day of any applicable leave of absence, such periods shall
67 not be included in the 24 months of active service.

68 Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, as amended, no
69 service credit may be purchased under this section if it is included in the calculation of any retirement
70 allowance received or to be received by the member from this or another retirement system, or if there is a
71 balance in a defined contribution account that serves as a primary retirement account related to such service.

72 For purposes of this subsection, "active duty military service" means full-time service of at least 180
73 consecutive days in the United States Army, Navy, Air Force, Marines, Coast Guard, or any other distinct
74 branch of the armed services as established by the federal government, or reserve components thereof.

75 B. Any member in service may purchase all prior service credit for creditable service lost from ceasing to
76 be a member under this chapter, as provided in § 51.1-128, because of the withdrawal of his accumulated
77 contributions. For each year or portion thereof to be credited at the time of purchase under this subsection, the
78 member shall pay the withdrawn amount to be purchased plus interest accrued daily and compounded
79 annually from the date of withdrawal to the date of payment at the assumed rate of return established by the
80 Board for the actuarial valuation of the retirement system that is in effect at the time of the purchase. The
81 Board shall develop guidelines and procedures for administering this subsection.

82 C. Any member in service may purchase service credit for accumulated sick leave on his effective date of
83 retirement based upon such sums as the employer may provide as payment for any unused sick leave
84 balances. The cost of service credit purchased under this subsection shall be the actuarial equivalent cost of
85 such service.

86 D. Any member receiving benefits under the Virginia Workers' Compensation Act (§ 65.2-100 et seq.)
87 may, in a manner prescribed by the Board and prior to the effective date of retirement, purchase service that
88 is not reported to the retirement system by the member's employer while the member is receiving such
89 benefits.

90 For each year or portion thereof to be credited at the time of purchase under this subsection, the member
91 shall pay the approximate normal cost of the retirement plan under which the member is covered, as
92 determined by the Board in its sole discretion. If the member does not purchase, or enter into a purchase of
93 service credit contract for, any service made available in this subsection within the first 24 months of the
94 member's active service following his first date of hire or the final day of any applicable leave of absence,
95 then, for each year or portion thereof to be credited at the time of purchase, the member shall pay the actuarial
96 equivalent cost. To the extent the member becomes inactive during the 24 months following his first date of
97 hire or the final day of any applicable leave of absence, such periods shall not be included in the 24 months of
98 active service.

99 E. Payment may be made in a lump sum at the time of purchase or by payroll deduction. Any number of
100 additional deductions may be permitted at any time. Should any deduction be terminated before the member
101 purchases the entire period contracted for, the member shall be credited with the number of full or partial
102 months of service for which full payment has been made. If any deduction is continued after the entire period
103 has been purchased, the member shall be credited with no more than the amount of service for which he was
104 eligible and for which he paid, and the excess amount deducted shall be refunded to the member.

105 F. Any employer may elect to pay an equivalent amount in lieu of all member contributions required of its
106 employees for the purchase of service credit pursuant to this section. These contributions shall not be
107 considered wages for purposes of Chapter 7 (§ 51.1-700 et seq.), nor shall they be considered salary for
108 purposes of this chapter.

109 G. In any case where member and employer contributions, as required under this chapter, were not made
110 because of an error in the payroll, personnel, or other classification system of an employer participating in the
111 retirement system, service that has not been credited because of such error may be purchased on the following
112 basis:

113 1. The most recent three years of service credit shall be purchased, using applicable member and employer
114 contribution rates and creditable compensation in effect for such period, in a manner and at the cost
115 prescribed by the Board; and

116 2. All other years of service credit shall be purchased by the employer at an actuarial equivalent cost.

117 H. Any member may receive credit at no cost for service rendered in the armed forces of the United States
118 provided (i) the member was on leave of absence from a covered position, (ii) the discharge from a period of
119 active duty with the armed forces was not dishonorable, (iii) the member has not withdrawn his accumulated

120 contributions, (iv) the member is not disabled or killed while on leave without pay while performing active
121 duty military service in the armed forces of the United States, and (v) the member reenters service in a
122 covered position within one year after discharge from the armed forces. In order to receive such service, the
123 member must complete such forms and other requirements as are required by the Board and the retirement
124 system.
