HOUSE BILL NO. 2630

Offered January 13, 2025

A BILL to amend and reenact § 15.2-961.3 of the Code of Virginia, relating to replacement of trees during development process in localities; tree canopy fund.

Patrons—Willet, Anthony, Bennett-Parker, Carr, Cousins, Helmer, Henson, Hope, Keys-Gamarra, Krizek, LeVere Bolling, Price, Shin, Sullivan and Tran

Referred to Committee on Agriculture, Chesapeake and Natural Resources

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-961.3 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-961.3. Replacement of trees during development process in localities.

A. Any locality may adopt an ordinance providing for the planting and replacement of trees during the development process pursuant to the provisions of this section.

B. The ordinance shall require that the site plan for any subdivision or development include the planting or replacement of trees on the site to the extent that, at 20 years, minimum tree canopies or covers will be provided in areas to be designated in the ordinance, as follows:

- 1. Ten percent tree canopy for a site zoned business, commercial, or industrial;
- 2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;
- 3. Fifteen percent tree canopy for a residential site zoned more than 10 but less than 20 units per acre;
- 4. Twenty percent tree canopy for a residential site zoned 10 units or less per acre; and

5. The tree canopy percentage for a mixed-use development shall be the percentage applicable to the predominant use of the development. For purposes of this subdivision, "predominant use" means the use within the development that constitutes the largest percentage of gross land area or, in the case of a building or buildings, the largest percentage of the total floor area.

However, the City of Williamsburg may require at 10 years the minimum tree canopies or covers set out in this subsection.

C. The ordinance shall require that the site plan for any subdivision or development include, at 20 years, that a minimum 10 percent tree canopy will be provided on the site of any cemetery as defined in § 54.1-2310, notwithstanding any other provision of this section. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements of this subsection.

D. The ordinance shall provide for reasonable provisions for reducing the tree canopy requirements of subsection B or granting tree cover credit in consideration of the preservation of existing tree cover or for preservation of trees of outstanding age, size, or physical characteristics.

E. The ordinance shall provide for reasonable exceptions to or deviations from these requirements to allow for the reasonable development of farm land or other areas devoid of healthy or suitable woody materials, for the preservation of wetlands, or otherwise when the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer. In such instances, the ordinance may provide for a tree canopy bank or fund whereby a portion of a development's tree canopy requirement may be met from off-site planting or replacement of trees at the direction of the locality.

F. Any such tree canopy bank shall be within the locality and located as closely as feasible to where the development project is situated. If there is no bank within the locality of the development project with sufficient credits to meet the project's off-site needs, and with the approval of the locality where the development project is located, the unmet portion of a development's tree canopy requirement may be met by payment of an amount equal to no less than the development project's avoided costs for the unmet portion to the locality's tree canopy fund established pursuant to subsection G or the state treasury and to be credited to the Natural Resources Commitment Fund, pursuant to subsection A of § 10.1-2128.1. Amounts credited to the Natural Resources Commitment Fund pursuant to this subsection shall be distributed to the Virginia Agricultural Best Management Practices Cost-Share Program and applied to the implementation of riparian forested buffer best management practices. The following shall be exempt from the requirements of any tree replacement or planting ordinance promulgated under this section: dedicated school sites, playing fields and other nonwooded recreation areas, and other facilities and uses of a similar nature.

G. A locality may, by ordinance, establish a tree canopy fund to collect, maintain, and distribute fees collected from developers that cannot provide full tree canopy requirements on-site where permitted pursuant to subsection E. For purposes of establishing consistent and predictable fees, such ordinance shall establish cost units that are based on average costs of two-inch caliper nursery stock trees. The locality may use moneys from the tree canopy fund to (i) plant and maintain trees on public or private property or (ii) make a disbursement to a community-based organization that is exempt from income tax pursuant to § 501(c)(3) of

2/5/25 09:44

58 *the Internal Revenue Code and is operated for tree planting, stewardship, or community-beautification*
59 *missions that benefit the community at large. Any funds collected by localities in accordance with this*
60 *subsection shall be spent within a five years of the collection date.*

61 *H.* The ordinance may designate tree species that cannot be planted to meet minimum tree canopy
62 requirements due to tendencies of such species to (i) negatively impact native plant communities, (ii) cause
63 damage to nearby structures and infrastructure, or (iii) possess inherent physiological traits that cause such
64 trees to structurally fail. All trees to be planted shall meet the specifications of the AmericanHort. The
65 planting of trees shall be done in accordance with either the standardized landscape specifications adopted by
66 the Virginia Nursery and Landscape Association, the Virginia Society of Landscape Designers, or the
67 Virginia Chapter of the American Society of Landscape Architects or, if applicable, the road and bridge
68 specifications of the Virginia Department of Transportation.

69 ~~G.~~ *I.* Existing trees that are to be preserved may be included to meet all or part of the canopy
70 requirements, and may include wooded preserves, if the site plan identifies such trees and the trees meet
71 standards of desirability and life-year expectancy that the locality may establish.

72 ~~H.~~ *J.* For purposes of this section, "tree canopy" or "tree cover" includes all areas of coverage by plant
73 material exceeding five feet in height, and the extent of planted tree canopy at 10 or 20 years' maturity.
74 Planted canopy at 10 or 20 years' maturity shall be based on published reference texts generally accepted by
75 landscape architects, nurserymen, and arborists in the community or standards adopted by the Virginia State
76 Forester, and the texts shall be specified in the ordinance.

77 ~~I.~~ *K.* Penalties for violations of ordinances adopted pursuant to this section shall be the same as those
78 applicable to violations of zoning ordinances of the locality.

79 ~~J.~~ *L.* In no event shall any local tree replacement or planting ordinance adopted pursuant to this section
80 exceed the requirements set forth herein. Nothing in this section shall prohibit or unreasonably limit
81 silvicultural practices in accordance with § 10.1-1126.1.

82 ~~K.~~ *M.* Nothing in this section shall invalidate any local ordinance adopted by the City of Williamsburg
83 that imposes standards for 10-year-minimum tree cover replacement or planting during the development
84 process.

85 ~~L.~~ *N.* Nothing in this section shall invalidate any local ordinance adopted pursuant to the provisions of §
86 15.2-961 or 15.2-961.1.
