SENATE BILL NO. 1124
AMENDMENT IN THE NATURE OF A SUBSTITUTE
(Proposed by the Senate Committee on Education and Health
on January 23, 2025)

(Patron Prior to Substitute—Senator Boysko)

A BILL to amend and reenact § 22.1-205 of the Code of Virginia, relating to Board of Education; driver education programs; administration in-person or online.

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-205 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-205. Driver education programs.

A. The Board of Education shall establish for the public school system a standardized program of driver education in the safe operation of motor vehicles. Such program shall consist of classroom training, which may be administered in-person or online, except as provided in subdivision 2, and behind-the-wheel driver training. However, any student who participates in such a program of driver education shall meet the academic requirements established by the Board, and no student in a course shall be permitted to operate a motor vehicle without a license or other document issued by the Department of Motor Vehicles under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2, or the comparable law of another jurisdiction, authorizing the operation of a motor vehicle upon the highways.

1. The driver education program shall include (i) instruction concerning (a) alcohol and drug abuse; (b) aggressive driving; (c) the dangers of distracted driving and speeding; (d) motorcycle awareness; (e) organ and tissue donor awareness; (f) fuel-efficient driving practices; and (g) traffic stops, including law-enforcement procedures for traffic stops, appropriate actions to be taken by drivers during traffic stops, and appropriate interactions with law-enforcement officers who initiate traffic stops, and (ii) an additional minimum 90-minute parent/student driver education component as part of the classroom portion of the driver education curriculum. However, no student who is (1) at least 18 years of age, (2) an emancipated minor, or (3) an unaccompanied minor who is not in the physical custody of his parent or guardian shall be required to participate in the parent/student driver education component.

2. The parent/student driver education component shall be administered as part of the classroom portion of the driver education curriculum. In Planning District 8, the parent/student driver education component shall be administered in-person. Outside Planning District 8, the parent/student driver education component may be administered either in-person or online by a public school or a driver training school that is licensed as a computer-based driver education provider. The participation of the student's parent or guardian in the parent/student driver education component shall be required in Planning District 8 unless the student is otherwise exempted from participation in the parent/student driver education component pursuant to the provisions of subdivision 1. Outside Planning District 8, the participation of the student's parent or guardian in the parent/student driver education component shall be encouraged, but shall not be required. The program shall emphasize (i) parental responsibilities regarding juvenile driver behavior, (ii) juvenile driving restrictions pursuant to this Code, (iii) the dangers of driving while intoxicated and underage consumption of alcohol, and (iv) the dangers of distracted driving. Such instruction shall be developed by the Department in cooperation with the Virginia Alcohol Safety Action Program, the Department of Health, and the Department of Behavioral Health and Developmental Services, as appropriate. Nothing in this subdivision precludes any school division from including a program of parental involvement as part of a driver education program in addition to the minimum 90-minute parent/student driver education component.

3. Any driver education program shall require a minimum number of miles driven during the behind-the-wheel driver training.

B. The Board shall assist school divisions by preparation, publication and distribution of competent driver education instructional materials to ensure a more complete understanding of the responsibilities and duties of motor vehicle operators.

C. Each school board shall determine whether to offer the program of driver education in the safe operation of motor vehicles and, if offered, whether such program shall be an elective or a required course. In addition to the fee approved by the Board of Education pursuant to the appropriation act that allows local school boards to charge a per pupil fee for behind-the-wheel driver education, the Board of Education may authorize a local school board's request to assess a surcharge in order to further recover program costs that exceed state funds distributed through basic aid to school divisions offering driver education programs. Each school board may waive the fee or the surcharge in total or in part for those students it determines cannot pay the fee or surcharge. Only school divisions complying with the standardized program and regulations established by the Board of Education and the provisions of § 46.2-335 shall be entitled to participate in the distribution of state funds appropriated for driver education.

Each school board shall make the 90-minute parent/student driver education component available to all

SENATE SUBSTITUTE

SB1124S1

60 students and their parents or guardians who are in compliance with § 22.1-254.

61 D. The actual initial driving instruction shall be conducted, with motor vehicles equipped as may be
62 required by regulation of the Board of Education, on private or public property removed from public
63 highways if practicable; if impracticable, then, at the request of the school board, the Commissioner of
64 Highways shall designate a suitable section of road near the school to be used for such instruction. Such
65 section of road shall be marked with signs, which the Commissioner of Highways shall supply, giving notice
66 of its use for driving instruction. Such signs shall be removed at the close of the instruction period. No
67 vehicle other than those used for driver training shall be operated between such signs at a speed in excess of
68 25 miles per hour. Violation of this limit shall be a Class 4 misdemeanor.

69 E. The Board of Education may, in its discretion, promulgate regulations for the use and certification of
70 paraprofessionals as teaching assistants in the driver education programs of school divisions.

71 F. The Board of Education shall approve correspondence courses for the classroom training component of
72 driver education. These correspondence courses shall be consistent in quality with instructional programs
73 developed by the Board for classroom training in the public schools. Students completing the correspondence
74 courses for classroom training, who are eligible to take behind-the-wheel driver training, may receive
75 behind-the-wheel driver training (i) from a public school, upon payment of the required fee, if the school
76 division offers behind-the-wheel driver training and space is available, (ii) from a driver training school
77 licensed by the Department of Motor Vehicles, or (iii) in the case of a home schooling parent or guardian
78 instructing his own child who meets the requirements for home school instruction under § 22.1-254.1 or
79 subdivision B 1 of § 22.1-254, from a behind-the-wheel training course approved by the Board. Nothing
80 herein shall be construed to require any school division to provide behind-the-wheel driver training to
81 nonpublic school students.
