

25105819D

**SENATE BILL NO. 1035**

AMENDMENT IN THE NATURE OF A SUBSTITUTE  
(Proposed by the Senate Committee on Education and Health  
on January 23, 2025)

(Patrons Prior to Substitute—Senators Pekarsky and Head [SB 790])

*A BILL to amend and reenact § 54.1-3408 of the Code of Virginia, relating to opioid antagonists; dispensing and administration by person acting on behalf of an organization.*

**Be it enacted by the General Assembly of Virginia:**

**1. That § 54.1-3408 of the Code of Virginia is amended and reenacted as follows:**

**§ 54.1-3408. Professional use by practitioners.**

A. A practitioner of medicine, osteopathy, podiatry, dentistry, or veterinary medicine, a licensed advanced practice registered nurse pursuant to § 54.1-2957.01, a licensed certified midwife pursuant to § 54.1-2957.04, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 shall only prescribe, dispense, or administer controlled substances in good faith for medicinal or therapeutic purposes within the course of his professional practice. A licensed midwife pursuant to § 54.1-2957.7 shall only obtain, possess, and administer controlled substances in good faith for medicinal or therapeutic purposes within the course of his professional practice.

B. The prescribing practitioner's order may be on a written prescription or pursuant to an oral prescription as authorized by this chapter. The prescriber may administer drugs and devices, or he may cause drugs or devices to be administered by:

1. A nurse, physician assistant, or intern under his direction and supervision;

2. Persons trained to administer drugs and devices to patients in state-owned or state-operated hospitals or facilities licensed as hospitals by the Board of Health or psychiatric hospitals licensed by the Department of Behavioral Health and Developmental Services who administer drugs under the control and supervision of the prescriber or a pharmacist;

3. Emergency medical services personnel certified and authorized to administer drugs and devices pursuant to regulations of the Board of Health who act within the scope of such certification and pursuant to an oral or written order or standing protocol;

4. Persons who are employed or engaged at a medical care facility, as defined in § 32.1-3, who have a valid emergency medical services provider certification issued by the Board of Health as a requirement of being employed or engaged at the medical care facility within the scope of such certification, pursuant to an oral or written order or standing protocol to administer drugs and devices at the medical care facility; or

5. A licensed respiratory therapist as defined in § 54.1-2954 who administers by inhalation controlled substances used in inhalation or respiratory therapy.

C. Pursuant to an oral or written order or standing protocol, the prescriber, who is authorized by state or federal law to possess and administer radiopharmaceuticals in the scope of his practice, may authorize a nuclear medicine technologist to administer, under his supervision, radiopharmaceuticals used in the diagnosis or treatment of disease.

D. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of his professional practice, such prescriber may authorize registered nurses and licensed practical nurses to possess (i) epinephrine and oxygen for administration in treatment of emergency medical conditions and (ii) heparin and sterile normal saline to use for the maintenance of intravenous access lines.

Pursuant to the regulations of the Board of Health, certain emergency medical services technicians may possess and administer epinephrine in emergency cases of anaphylactic shock.

Pursuant to an order or standing protocol issued by the prescriber within the course of his professional practice, any school nurse, school board employee, employee of a local governing body, or employee of a local health department who is authorized by a prescriber and trained in the administration of epinephrine may possess and administer epinephrine.

Pursuant to an order or standing protocol that shall be issued by the local health director within the course of his professional practice, any school nurse, licensed athletic trainer under contract with a local school division, school board employee, employee of a local governing body, or employee of a local health department who is authorized by the local health director and trained in the administration of albuterol inhalers and valved holding chambers or nebulized albuterol may possess or administer an albuterol inhaler and a valved holding chamber or nebulized albuterol to a student diagnosed with a condition requiring an albuterol inhaler or nebulized albuterol when the student is believed to be experiencing or about to experience an asthmatic crisis.

Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional practice, any employee of a school for students with disabilities, as defined in § 22.1-319 and licensed by the Board of Education, or any employee of a private school that is accredited pursuant to § 22.1-19 as

SENATE SUBSTITUTE

SB1035S1

60 administered by the Virginia Council for Private Education who is authorized by a prescriber and trained in  
61 the administration of (a) epinephrine may possess and administer epinephrine and (b) albuterol inhalers or  
62 nebulized albuterol may possess or administer an albuterol inhaler or nebulized albuterol to a student  
63 diagnosed with a condition requiring an albuterol inhaler or nebulized albuterol when the student is believed  
64 to be experiencing or about to experience an asthmatic crisis.

65 Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional  
66 practice, any nurse at an early childhood care and education entity, employee at the entity, or employee of a  
67 local health department who is authorized by a prescriber and trained in the administration of epinephrine  
68 may possess and administer epinephrine.

69 Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional  
70 practice, any employee of a public institution of higher education or a private institution of higher education  
71 who is authorized by a prescriber and trained in the administration of epinephrine may possess and administer  
72 epinephrine.

73 Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional  
74 practice, any employee of an organization providing outdoor educational experiences or programs for youth  
75 who is authorized by a prescriber and trained in the administration of epinephrine may possess and administer  
76 epinephrine.

77 Pursuant to an order or a standing protocol issued by the prescriber within the course of his professional  
78 practice, and in accordance with policies and guidelines established by the Department of Health, such  
79 prescriber may authorize any employee of a restaurant licensed pursuant to Chapter 3 (§ 35.1-18 et seq.) of  
80 Title 35.1 to possess and administer epinephrine on the premises of the restaurant at which the employee is  
81 employed, provided that such person is trained in the administration of epinephrine.

82 Pursuant to an order issued by the prescriber within the course of his professional practice, an employee of  
83 a provider licensed by the Department of Behavioral Health and Developmental Services or a person  
84 providing services pursuant to a contract with a provider licensed by the Department of Behavioral Health  
85 and Developmental Services may possess and administer epinephrine, provided such person is authorized and  
86 trained in the administration of epinephrine.

87 Pursuant to an order or standing protocol issued by the prescriber within the course of his professional  
88 practice, any employee of a place of public accommodation, as defined in subsection A of § 2.2-3904, who is  
89 authorized by a prescriber and trained in the administration of epinephrine may possess and administer  
90 epinephrine.

91 Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of his  
92 professional practice, such prescriber may authorize pharmacists to possess epinephrine and oxygen for  
93 administration in treatment of emergency medical conditions.

94 E. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of  
95 his professional practice, such prescriber may authorize licensed physical therapists to possess and administer  
96 topical corticosteroids, topical lidocaine, and any other Schedule VI topical drug.

97 F. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of  
98 his professional practice, such prescriber may authorize licensed athletic trainers to possess and administer  
99 topical corticosteroids, topical lidocaine, or other Schedule VI topical drugs; oxygen and IV saline for use in  
100 emergency situations; subcutaneous lidocaine for wound closure; epinephrine for use in emergency cases of  
101 anaphylactic shock; and naloxone or other opioid antagonist for overdose reversal.

102 G. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of  
103 his professional practice, and in accordance with policies and guidelines established by the Department of  
104 Health pursuant to § 32.1-50.2, such prescriber may authorize registered nurses or licensed practical nurses  
105 under the supervision of a registered nurse to possess and administer tuberculin purified protein derivative  
106 (PPD) in the absence of a prescriber. The Department of Health's policies and guidelines shall be consistent  
107 with applicable guidelines developed by the Centers for Disease Control and Prevention for preventing  
108 transmission of mycobacterium tuberculosis and shall be updated to incorporate any subsequently  
109 implemented standards of the Occupational Safety and Health Administration and the Department of Labor  
110 and Industry to the extent that they are inconsistent with the Department of Health's policies and guidelines.  
111 Such standing protocols shall explicitly describe the categories of persons to whom the tuberculin test is to be  
112 administered and shall provide for appropriate medical evaluation of those in whom the test is positive. The  
113 prescriber shall ensure that the nurse implementing such standing protocols has received adequate training in  
114 the practice and principles underlying tuberculin screening.

115 The Health Commissioner or his designee may authorize registered nurses, acting as agents of the  
116 Department of Health, to possess and administer, at the nurse's discretion, tuberculin purified protein  
117 derivative (PPD) to those persons in whom tuberculin skin testing is indicated based on protocols and policies  
118 established by the Department of Health.

119 H. Pursuant to a written order or standing protocol issued by the prescriber within the course of his  
120 professional practice, such prescriber may authorize, with the consent of the parents as defined in § 22.1-1, an

121 employee of (i) a school board, (ii) a school for students with disabilities as defined in § 22.1-319 licensed by  
 122 the Board of Education, or (iii) a private school accredited pursuant to § 22.1-19 as administered by the  
 123 Virginia Council for Private Education who is trained in the administration of insulin and glucagon to assist  
 124 with the administration of insulin or administer glucagon to a student diagnosed as having diabetes and who  
 125 requires insulin injections during the school day or for whom glucagon has been prescribed for the  
 126 emergency treatment of hypoglycemia. Such authorization shall only be effective when a licensed nurse, an  
 127 advanced practice registered nurse, a physician, or a physician assistant is not present to perform the  
 128 administration of the medication.

129 Pursuant to a written order or standing protocol issued by the prescriber within the course of his  
 130 professional practice, such prescriber may authorize the possession and administration of undesignated  
 131 glucagon as set forth in subsection F of § 22.1-274.2.

132 Pursuant to a written order or standing protocol issued by the prescriber within the course of his  
 133 professional practice, such prescriber may authorize an employee of a public institution of higher education  
 134 or a private institution of higher education who is trained in the administration of insulin and glucagon to  
 135 assist with the administration of insulin or administration of glucagon to a student diagnosed as having  
 136 diabetes and who requires insulin injections or for whom glucagon has been prescribed for the emergency  
 137 treatment of hypoglycemia. Such authorization shall only be effective when a licensed nurse, an advanced  
 138 practice registered nurse, a physician, or a physician assistant is not present to perform the administration of  
 139 the medication.

140 Pursuant to a written order issued by the prescriber within the course of his professional practice, such  
 141 prescriber may authorize an employee of a provider licensed by the Department of Behavioral Health and  
 142 Developmental Services or a person providing services pursuant to a contract with a provider licensed by the  
 143 Department of Behavioral Health and Developmental Services to assist with the administration of insulin or  
 144 to administer glucagon to a person diagnosed as having diabetes and who requires insulin injections or for  
 145 whom glucagon has been prescribed for the emergency treatment of hypoglycemia, provided such employee  
 146 or person providing services has been trained in the administration of insulin and glucagon.

147 I. A prescriber may authorize, pursuant to a protocol approved by the Board of Nursing, the  
 148 administration of vaccines to adults for immunization, when a practitioner with prescriptive authority is not  
 149 physically present, by (i) licensed pharmacists, (ii) registered nurses, or (iii) licensed practical nurses under  
 150 the supervision of a registered nurse. A prescriber acting on behalf of and in accordance with established  
 151 protocols of the Department of Health may authorize the administration of vaccines to any person by a  
 152 pharmacist, nurse, or designated emergency medical services provider who holds an advanced life support  
 153 certificate issued by the Commissioner of Health under the direction of an operational medical director when  
 154 the prescriber is not physically present. The emergency medical services provider shall provide  
 155 documentation of the vaccines to be recorded in the Virginia Immunization Information System.

156 J. A dentist may cause Schedule VI topical drugs to be administered under his direction and supervision  
 157 by either a dental hygienist or by an authorized agent of the dentist.

158 Further, pursuant to a written order and in accordance with a standing protocol issued by the dentist in the  
 159 course of his professional practice, a dentist may authorize a dental hygienist under his general supervision,  
 160 as defined in § 54.1-2722, or his remote supervision, as defined in subsection E or F of § 54.1-2722, to  
 161 possess and administer topical oral fluorides, topical oral anesthetics, topical and directly applied  
 162 antimicrobial agents for treatment of periodontal pocket lesions, and any other Schedule VI topical drug  
 163 approved by the Board of Dentistry.

164 In addition, a dentist may authorize a dental hygienist under his direction to administer Schedule VI  
 165 nitrous oxide and oxygen inhalation analgesia and, to persons 18 years of age or older, Schedule VI local  
 166 anesthesia.

167 K. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course of  
 168 his professional practice, such prescriber may authorize registered professional nurses certified as sexual  
 169 assault nurse examiners-A (SANE-A) under his supervision and when he is not physically present to possess  
 170 and administer preventive medications for victims of sexual assault as recommended by the Centers for  
 171 Disease Control and Prevention.

172 L. This section shall not prevent the administration of drugs by a person who has satisfactorily completed  
 173 a training program for this purpose approved by the Board of Nursing and who administers such drugs in  
 174 accordance with a prescriber's instructions pertaining to dosage, frequency, and manner of administration,  
 175 and in accordance with regulations promulgated by the Board of Pharmacy relating to security and record  
 176 keeping, when the drugs administered would be normally self-administered by (i) an individual receiving  
 177 services in a program licensed by the Department of Behavioral Health and Developmental Services; (ii) a  
 178 resident of the Virginia Rehabilitation Center for the Blind and Vision Impaired; (iii) a resident of a facility  
 179 approved by the Board or Department of Juvenile Justice for the placement of children in need of services or  
 180 delinquent or alleged delinquent youth; (iv) a program participant of an adult day center licensed by the  
 181 Department of Social Services; (v) a resident of any facility authorized or operated by a state or local

182 government whose primary purpose is not to provide health care services; (vi) a resident of a private  
183 children's residential facility, as defined in § 63.2-100 and licensed by the Department of Social Services,  
184 Department of Education, or Department of Behavioral Health and Developmental Services; or (vii) a student  
185 in a school for students with disabilities, as defined in § 22.1-319 and licensed by the Board of Education.

186 In addition, this section shall not prevent a person who has successfully completed a training program for  
187 the administration of drugs via percutaneous gastrostomy tube approved by the Board of Nursing and been  
188 evaluated by a registered nurse as having demonstrated competency in administration of drugs via  
189 percutaneous gastrostomy tube from administering drugs to a person receiving services from a program  
190 licensed by the Department of Behavioral Health and Developmental Services to such person via  
191 percutaneous gastrostomy tube. The continued competency of a person to administer drugs via percutaneous  
192 gastrostomy tube shall be evaluated semiannually by a registered nurse.

193 M. Medication aides registered by the Board of Nursing pursuant to Article 7 (§ 54.1-3041 et seq.) of  
194 Chapter 30 may administer drugs that would otherwise be self-administered to residents of any assisted living  
195 facility licensed by the Department of Social Services. A registered medication aide shall administer drugs  
196 pursuant to this section in accordance with the prescriber's instructions pertaining to dosage, frequency, and  
197 manner of administration; in accordance with regulations promulgated by the Board of Pharmacy relating to  
198 security and recordkeeping; in accordance with the assisted living facility's Medication Management Plan;  
199 and in accordance with such other regulations governing their practice promulgated by the Board of Nursing.

200 N. In addition, this section shall not prevent the administration of drugs by a person who administers such  
201 drugs in accordance with a physician's instructions pertaining to dosage, frequency, and manner of  
202 administration and with written authorization of a parent, and in accordance with school board regulations  
203 relating to training, security and record keeping, when the drugs administered would be normally self-  
204 administered by a student of a Virginia public school. Training for such persons shall be accomplished  
205 through a program approved by the local school boards, in consultation with the local departments of health.

206 O. In addition, this section shall not prevent the administration of drugs by a person to (i) a child in a child  
207 day program as defined in § 22.1-289.02 and regulated by the Board of Education or a local government  
208 pursuant to § 15.2-914, or (ii) a student of a private school that is accredited pursuant to § 22.1-19 as  
209 administered by the Virginia Council for Private Education, provided such person (a) has satisfactorily  
210 completed a training program for this purpose approved by the Board of Nursing and taught by a registered  
211 nurse, a licensed practical nurse, an advanced practice registered nurse, a physician assistant, a doctor of  
212 medicine or osteopathic medicine, or a pharmacist; (b) has obtained written authorization from a parent or  
213 guardian; (c) administers drugs only to the child identified on the prescription label in accordance with the  
214 prescriber's instructions pertaining to dosage, frequency, and manner of administration; and (d) administers  
215 only those drugs that were dispensed from a pharmacy and maintained in the original, labeled container that  
216 would normally be self-administered by the child or student, or administered by a parent or guardian to the  
217 child or student.

218 P. In addition, this section shall not prevent the administration or dispensing of drugs and devices by  
219 persons if they are authorized by the State Health Commissioner in accordance with protocols established by  
220 the State Health Commissioner pursuant to § 32.1-42.1 when (i) the Governor has declared a disaster or a  
221 state of emergency, the United States Secretary of Health and Human Services has issued a declaration of an  
222 actual or potential bioterrorism incident or other actual or potential public health emergency, or the Board of  
223 Health has made an emergency order pursuant to § 32.1-13 for the purpose of suppressing nuisances  
224 dangerous to the public health and communicable, contagious, and infectious diseases and other dangers to  
225 the public life and health and for the limited purpose of administering vaccines as an approved  
226 countermeasure for such communicable, contagious, and infectious diseases; (ii) it is necessary to permit the  
227 provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely  
228 administer or dispense the needed drugs or devices. Such persons shall administer or dispense all drugs or  
229 devices under the direction, control, and supervision of the State Health Commissioner.

230 Q. Nothing in this title shall prohibit the administration of normally self-administered drugs by unlicensed  
231 individuals to a person in his private residence.

232 R. This section shall not interfere with any prescriber issuing prescriptions in compliance with his  
233 authority and scope of practice and the provisions of this section to a Board agent for use pursuant to  
234 subsection G of § 18.2-258.1. Such prescriptions issued by such prescriber shall be deemed to be valid  
235 prescriptions.

236 S. Nothing in this title shall prevent or interfere with dialysis care technicians or dialysis patient care  
237 technicians who are certified by an organization approved by the Board of Health Professions or persons  
238 authorized for provisional practice pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.), in the ordinary course  
239 of their duties in a Medicare-certified renal dialysis facility, from administering heparin, topical needle site  
240 anesthetics, dialysis solutions, sterile normal saline solution, and blood volumizers, for the purpose of  
241 facilitating renal dialysis treatment, when such administration of medications occurs under the orders of a  
242 licensed physician, an advanced practice registered nurse, or a physician assistant and under the immediate

243 and direct supervision of a licensed registered nurse. Nothing in this chapter shall be construed to prohibit a  
244 patient care dialysis technician trainee from performing dialysis care as part of and within the scope of the  
245 clinical skills instruction segment of a supervised dialysis technician training program, provided such trainee  
246 is identified as a "trainee" while working in a renal dialysis facility.

247 The dialysis care technician or dialysis patient care technician administering the medications shall have  
248 demonstrated competency as evidenced by holding current valid certification from an organization approved  
249 by the Board of Health Professions pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.).

250 T. Persons who are otherwise authorized to administer controlled substances in hospitals shall be  
251 authorized to administer influenza or pneumococcal vaccines pursuant to § 32.1-126.4.

252 U. Pursuant to a specific order for a patient and under his direct and immediate supervision, a prescriber  
253 may authorize the administration of controlled substances by personnel who have been properly trained to  
254 assist a doctor of medicine or osteopathic medicine, provided the method does not include intravenous,  
255 intrathecal, or epidural administration and the prescriber remains responsible for such administration.

256 V. A physician assistant, nurse, dental hygienist, or authorized agent of a doctor of medicine, osteopathic  
257 medicine, or dentistry may possess and administer topical fluoride varnish pursuant to an oral or written order  
258 or a standing protocol issued by a doctor of medicine, osteopathic medicine, or dentistry.

259 W. A prescriber, acting in accordance with guidelines developed pursuant to § 32.1-46.02, may authorize  
260 the administration of influenza vaccine to minors by a licensed pharmacist, registered nurse, licensed  
261 practical nurse under the direction and immediate supervision of a registered nurse, or emergency medical  
262 services provider who holds an advanced life support certificate issued by the Commissioner of Health when  
263 the prescriber is not physically present.

264 X. Notwithstanding the provisions of § 54.1-3303, pursuant to an oral, written, or standing order issued by  
265 a prescriber or a standing order issued by the Commissioner of Health or his designee authorizing the  
266 dispensing of naloxone or other opioid antagonist used for overdose reversal in the absence of an oral or  
267 written order for a specific patient issued by a prescriber, and in accordance with protocols developed by the  
268 Board of Pharmacy in consultation with the Board of Medicine and the Department of Health, a pharmacist, a  
269 health care provider providing services in a hospital emergency department, and emergency medical services  
270 personnel, as that term is defined in § 32.1-111.1, may dispense naloxone or other opioid antagonist used for  
271 overdose reversal and a person to whom naloxone or other opioid antagonist has been dispensed pursuant to  
272 this subsection may possess and administer naloxone or other opioid antagonist used for overdose reversal to  
273 a person who is believed to be experiencing or about to experience a life-threatening opioid overdose.  
274 Law-enforcement officers as defined in § 9.1-101, employees of the Department of Forensic Science,  
275 employees of the Office of the Chief Medical Examiner, employees of the Department of General Services  
276 Division of Consolidated Laboratory Services, employees of the Department of Corrections designated by the  
277 Director of the Department of Corrections or designated as probation and parole officers or as correctional  
278 officers as defined in § 53.1-1, employees of the Department of Juvenile Justice designated as probation and  
279 parole officers or as juvenile correctional officers, employees of regional jails, employees of any state agency,  
280 school nurses, local health department employees that are assigned to a public school pursuant to an  
281 agreement between the local health department and the school board, school board employees who have  
282 completed training and are certified in the administration of an opioid antagonist for overdose reversal by a  
283 program administered or authorized by the Department of Health, other school board employees or  
284 individuals contracted by a school board to provide school health services, and firefighters may also possess  
285 and administer naloxone or other opioid antagonist used for overdose reversal and may dispense naloxone or  
286 other opioid antagonist used for overdose reversal pursuant to an oral, written, or standing order issued by a  
287 prescriber or a standing order issued by the Commissioner of Health or his designee in accordance with  
288 protocols developed by the Board of Pharmacy in consultation with the Board of Medicine and the  
289 Department of Health.

290 Notwithstanding the provisions of § 54.1-3303, pursuant to an oral, written, or standing order issued by a  
291 prescriber or a standing order issued by the Commissioner of Health or his designee authorizing the  
292 dispensing of naloxone or other opioid antagonist used for overdose reversal in the absence of an oral or  
293 written order for a specific patient issued by a prescriber, and in accordance with protocols developed by the  
294 Board of Pharmacy in consultation with the Board of Medicine and the Department of Health, any person  
295 may possess and administer naloxone or other opioid antagonist used for overdose reversal, other than  
296 naloxone in an injectable formulation with a hypodermic needle or syringe, in accordance with protocols  
297 developed by the Board of Pharmacy in consultation with the Board of Medicine and the Department of  
298 Health.

299 Y. Notwithstanding any other law or regulation to the contrary, a person who is acting on behalf of an  
300 organization that provides services to individuals at risk of experiencing an opioid overdose or training in the  
301 administration of naloxone or other opioid antagonist for overdose reversal may dispense naloxone or other  
302 opioid antagonist, provided that such dispensing is (i) pursuant to a standing order issued by a prescriber and  
303 (ii) in accordance with protocols developed by the Board of Pharmacy in consultation with the Board of

304 Medicine and the Department of Health. If the person acting on behalf of an organization dispenses naloxone  
305 *or other opioid antagonist* in an injectable formulation with a hypodermic needle or syringe, he shall first  
306 obtain authorization from the Department of Behavioral Health and Developmental Services to train  
307 individuals on the proper administration of naloxone *or other opioid antagonist* by and proper disposal of a  
308 hypodermic needle or syringe, and he shall obtain a controlled substance registration from the Board of  
309 Pharmacy. The Board of Pharmacy shall not charge a fee for the issuance of such controlled substance  
310 registration. The dispensing may occur at a site other than that of the controlled substance registration  
311 provided the entity possessing the controlled substances registration maintains records in accordance with  
312 regulations of the Board of Pharmacy. No person who dispenses naloxone *or other opioid antagonist* on  
313 behalf of an organization pursuant to this subsection shall charge a fee for the dispensing of naloxone *or*  
314 *other opioid antagonist* that is greater than the cost to the organization of obtaining the naloxone *or other*  
315 *opioid antagonist* dispensed. A person to whom naloxone *or other opioid antagonist* has been dispensed  
316 pursuant to this subsection may possess naloxone *or other opioid antagonist* and may administer naloxone *or*  
317 *other opioid antagonist* to a person who is believed to be experiencing or about to experience a  
318 life-threatening opioid overdose.

319 Z. A person who is not otherwise authorized to administer naloxone or other opioid antagonist used for  
320 overdose reversal may administer naloxone or other opioid antagonist used for overdose reversal to a person  
321 who is believed to be experiencing or about to experience a life-threatening opioid overdose.

322 AA. Pursuant to a written order or standing protocol issued by the prescriber within the course of his  
323 professional practice, such prescriber may authorize, with the consent of the parents as defined in § 22.1-1, an  
324 employee of (i) a school board, (ii) a school for students with disabilities as defined in § 22.1-319 licensed by  
325 the Board of Education, or (iii) a private school accredited pursuant to § 22.1-19 as administered by the  
326 Virginia Council for Private Education who is trained in the administration of injected medications for the  
327 treatment of adrenal crisis resulting from a condition causing adrenal insufficiency to administer such  
328 medication to a student diagnosed with a condition causing adrenal insufficiency when the student is believed  
329 to be experiencing or about to experience an adrenal crisis. Such authorization shall be effective only when a  
330 licensed nurse, an advanced practice registered nurse, a physician, or a physician assistant is not present to  
331 perform the administration of the medication.
