Commission on Local Government

Estimate of Local Fiscal Impact

2025 General Assembly Session | 1/24/25

In accordance with the provisions of 30-19.03 of the Code of Virginia, the staff of the Commission on Local Government offers the following analysis of legislation impacting local governments.

HB2297: School boards; employment of school resource officers in each public elementary & secondary school. (Mark L. Earley, Jr.)

Bill Summary: School boards; employment of school resource officers in each public elementary and secondary school. Requires each school board to enter into a collaborative agreement with the local law-enforcement agency to employ at least one school resource officer in each public elementary and secondary school in the local school division and provides that no school board shall be granted any full or partial waiver from such staffing requirements. The bill contains a contingent effective date that states that the foregoing requirement shall become effective beginning with the fiscal year in which funding has been provided pursuant to the general appropriation act to fully fund such requirement.

Local Fiscal Impact:	Net Additional Expenditure:	Х	Net Reduction of Revenues:	

Summary Analysis:

Number of Localities Responding: 4 Cities, 13 Counties, 4 Towns, 1 Other

Localities estimated a negative fiscal impact ranging from \$0 to \$24 million over the biennium.

Localities estimated a negative fiscal impact as recurring operating and personnel expenses and some nonrecurring expenses, and few localities indicated no impact.

Locality	Expenditure Narrative by Responding Localities				
	The investment to employ at least one school resource officer in each public elementary and secondary school in the County of				
	Albemarle school division would total ~\$4,679,720. This estimate is based on the following assumptios:1) "Secondary				
	schoolsâ€⊡are equivalent to Albemarle County's "middle schoolsâ€⊡and 2) Albemarle County's school division includes				
	15 elementary schools and 5 middle or secondary schools for a total of 20 schools impacted by this bill.				
	Currently the Albemarle County Police Department does not have personnel in place to contribute to what would be this				
	collaborative agreement and, therefore, would need to hire accordingly. The hiring and training process for SROs is potentially a				
	year-long endeavor, which must be considered with any funding effective date.				
	The total estimate includes all equipment necessary to properly outfit a uniformed school resource officer. HB2297 mentions				
	the grants shall not be used for any expense related to the purchase of firearms, handcuffs or other wrist restraints, or any stun				
Albemarle County	weapon as defined. This equipment equates to an additional ~\$109,960 in one-time expenditures.				
	Our county currently provides School Resource Officers in each school in our district. My concern is another unfunded mandate.				
	If we encounter fiscal distress, we no longer have the autonomy to make adjustments where we see fit and will be bound by this				
Alleghany County	mandate.				
	It appears in the summary that the state is to fully fund this requirement. If that is the case, it would not increase expenses. I'm				
	assuming that fully fund means all costs associated with the employment of these officers. Note, currently the school contracts				
Charlotte County	with a 3rd party for security officers in two of our 5 schools.				
	Chesterfield County currently has 32 SROs and 66 schools (including two technical centers). This would mean that the county				
	would need to hire an additional 34 SRUs to have one at every school. The current average salary of the 32 SRUs is \$86,700.				
	would need to hire an additional 34 SROs to have one at every school. The current average salary of the 32 SROs is \$86,700. When accounting for benefits the total reoccurring salary cost for an additional 34 SROs at the current average salary would be

Additionally, as the county increases the number of school facilities in operation, there would need to be additional officers to match. The cost to add a School Resource Office at Alexandria City Public Schools' elementary and middle schools (14 schools in total) 				

Locality	Expenditure Narrative by Responding Localities
	The City of Richmond would need 35 additional school resource officers to cover all elementary and middle schools. Given
	national hiring trends, it is likely the city will have to move officers from patrol into these positions while working to hire and
	train enough replacement officers. This means we would need to pay overtime to cover minimum staffing in patrol until these
	roles are filled. The estimated expenditure changes are based on 32 officers at average overtime rate, 2 sergeants at average
City of Richmond	overtime rate, and 1 lieutenant at average overtime rate.
	Virginia Beach currently has SROs in all middle and high schools. These are sworn police officers and the City pays the cost, not
	the school division. There are currently a total of 30 SROs, if all elementary schools were to need SROs, an additional 55 FTEs
City of Virginia	would be needed- approximately \$5.7 million. I took the total cost of the current SRO division, divided by the number of current
Beach'	FTEs, and multiplied by 55 to come up with an estimate.
	We would need 2 additional police officers base salary \$50,000, benefits 12,500
	\$62,500X2=\$125,000.00
City of Winchester	2 cars for police officers
	the data shows the hiring of 9 new SROs, annual expenses and one-time expenses (vehicles, computers, uniforms, equipment).
Fauquier County	The "other" represents the purchase of vehicles.
	The County currently provides at least one SRO to every school in our County. If this bill were to progress, particularly since
	Enactment Clause # 2 provides that the act shall only become effective with funding, then the requirement of the DCJS SRO
	Incentive Grant Program that requires two years of certified LEO experience (see Section X.2. of the DCJS Fiscal Year 2025 School
	Resource Officer Incentive Grant Program, Guidelines and Application Procedures for School Resource Officers) should be lifted,
	because any constraints on the eligible pool of officers will make it harder to meet the requirements of placing an officer in
Mecklenburg County	every school.
	The cost estimates include recurring salary and benefits cost, as well as one-time uniform and sign-on bonus costs associated
	with bringing on an additional SRO. Montgomery County would need to bring on just one additional SRO to have one available
Montgomery County	in each school.
Northern Neck PDC	Planning districts are not a party to either school board or law enforcement arrangements.

Locality	Expenditure Narrative by Responding Localities
	Without knowing the amount of funding the state would supply (if any) under Subsection S for SROs at each school, it really won't be possible for us to compute a good fiscal impact. We can assume the Legislation suggests that the Standards of Quality (SOQ) would be adjusted to include SROs as funded positions, and some state funding would be provided if SRO positions become SOQ-Funded Positions (a \$ amount per position, adjusted by the locality's Local Composite Index (LCI)). Our impact would be the difference. The state also only supplies a fraction of the funding needed for benefits (such as health insurance). To add another wrinkle, some localities (including Prince George) have School Resource Officer grant funding from DCJS that supplies a portion of the salary and benefits for SROs for a limited time (finite number of years) at some schools. Some School Divisions and localities also receive School Resource Officer grant funding from DCJS (again for a finite number of years). Our Police Chief does not think that sworn School Resource Officers (who are sworn law enforcement officers) can truly be school employees. Funding, if provided at all, would be provide to the School Division. Our Police Chief indicates that the County Police Department would have to employ sworn SROs, not the school division. This legislation, as proposed, seems to have some "holesâ€from our perspective. We will have DCJS SRO Grant Funding for a portion of 2 School Resource Officers in place for FY2026 (\$149,920). We have 8 schools. We have computed 100% local impact for 6 school SROs (at \$99,667 per officer), and the local match portion + additional local funding provided for the DCJS 2 grant-funded positions (and have included \$0 SOQ state funding / revenue). We
	have included \$3,000 per officer in annual recurring operating costs (training, uniform, fuel); \$8,630 in non-recurring equipment
	costs for 8 officers (not covered in the grant) and 8 vehicles as capital costs at \$66,138 per equipped vehicle. Prince William County would have to hire an additional 66 officers to fulfill this mandate. Other costs associated with
Prince William County Pulaski County	recruitment and training are estimated at \$650,000 annually.
	These costs are based on personnel costs at four (4) elementary schools in the county and the outfit and operating costs. Rappahannock County has two schools and each is assigned an SRO. Hopefully new revenue will be available to
	divisions/localities that have been fulfilling this intent.
	We have 14 schools in our school system. While we have been blessed with grant funding for 6 SRO positions through DCJS, we have been notified that those grant funds will not be extended beyond June 30, 2025. Should thes requirements move forward without additional state funding support, the numbers above would be our costs. This would place yet one more burden on our real estate and personal property taxes, which are already being overly relied upon to help us balance our budget since they are
Smyth County	our largest and most fluid income streams.
Sussex County	
Town of Chincoteague	

Locality	Expenditure Narrative by Responding Localities
Town of	
Christiansburg	I would not anticipate any increase in expenditures associated with this change.
Town of Rocky Mount	We provide 2 SRO's for the School system and do not anticipate increasing that number.
	Currently resource officers are provided in the elementary school in town by the county sheriff's office. If this were to change
	and the school board were to contract with the town for an SRO in the elementary school, then the town would need to add
Town of Victoria	personnel above the current budget to cover the position.
