Background

The Retail Sales and Use Tax is imposed upon the charge for the sale or use of tangible personal property, unless an exemption applies. Virginia law defines “tangible personal property” as personal property that may be seen, weighed, measured, felt, or touched, or is in any other manner perceptible to the senses. In general, any retail merchant is allowed to purchase items that it intends to resell to its customers exempt from the tax because it will collect the tax from its customers at the time of sale.

Legislation enacted in the 2022 Session of the General Assembly, House Bill 551 and Senate Bill 517 (2022 *Acts of Assembly*, Chapters 551 and 552) granted a Retail Sales and Use Tax exemption for veterinarians on their purchases of prescription medicines and drugs that are administered or dispensed to patients within a veterinarian-client-patient relationship.

Proposal

This bill would extend the sunset date for the exemption from the Retail Sales and Use Tax for veterinarians from Retail Sales and Use Tax on their purchases of prescription medicines and drugs that are administered or dispensed to patients within a veterinarian-client-patient relationship until July 1, 2028.

If enacted during the regular session of the 2025 General Assembly this bill would become effective July 1, 2025.
