C. The provisions of subdivisions B 1 through 4 and subdivisions B 5 b and c shall not apply (i) to any transportation district that may be established on or after July 1, 1986, and that includes any one or more localities that are located within a metropolitan area, but that were not, on January 1, 1986, members of any other transportation district or (ii) to any locality that, after July 1, 1989, joins a transportation district that was established on or before January 1, 1986. The provisions of this subsection shall apply only to any transportation district or locality that is contiguous to the Northern Virginia Transportation District. Any such district or locality shall be subject to the provisions of subsection A and further may exercise the powers granted by subdivision B 5 a to acquire land or any interest therein by purchase, lease, gift, condemnation, or otherwise and provide transportation facilities thereon for use in connection with any transportation service.

D. Until such time as a commission enters into contracts or agreements with its component governments under the provisions of subdivisions A 4 and B 4 and is receiving revenues thereunder adequate to meet the administrative expenses of the commission after paying or providing for the payment of the obligations arising under said subdivisions, the administrative expenses of the commission shall be borne by the component governments in the manner set forth in this section. The commission annually shall submit to the governing bodies of the component counties and cities a budget of its administrative requirements for the next year.

E. The administrative expenses of the Northern Virginia Transportation Commission, to the extent funds for such expenses are not provided from other sources, shall be allocated among the component governments on the basis of population as reflected by the latest population statistics of the U.S. Census Bureau; however, upon the request of any component government, the commission shall make the allocation upon estimates of population prepared in a manner approved by the commission and by the governing body of the component government making such request. The administrative expenses of the Northern Virginia Transportation Commission, to the extent funds for such expenses are not provided from other sources, shall be allocated among the component governments on the basis of the relative shares of state and federal transit aids allocated by the Commission among its component governments. Such budget shall be limited solely to the administrative expenses of the Commission and shall not include any funds for construction or acquisition of transportation facilities or the performing of transportation service. In addition, the Northern Virginia Transportation Commission annually shall submit to the governing bodies of the component counties and cities a budget of its other expenses and obligations for the ensuing year. Such expenses and obligations shall be borne by the component counties and cities in accordance with prior arrangements made therefor.

F. When a transportation plan has been adopted under subdivision 4 of § 33.2-1929, the commission shall determine the equitable allocation among the component governments of the costs incurred by the district in providing the transportation facilities proposed in the transportation plan and any expenses and obligations from the operation thereof to be borne by each county and city. In making such determinations, the commission shall consider the cost of the facilities located within each county and city, the population of each county and city, the benefits to be derived by each county and city from the proposed transportation service, and all other factors that the commission determines to be relevant. Such determination, however, shall not create a commitment by the counties and cities, and such commitments shall be created only under the contracts or agreements specified in subdivisions A 4 and B 4.
