## **Fiscal Analysis:**

TOTAL

Anyone convicted of a Class 1 misdemeanor is subject to a sentence of up to 12 months in jail and a fine of not more than \$2,500, either or both. Anyone convicted of a third or subsequent Class I misdemeanor because of this new provision could be convicted of a Class 6 felony and be subject to a sentence of one to five years in prison, or up to 12 months in jail and a fine of not more than \$2,500, either or both. Therefore, the proposal may increase the number of individuals in jails and the future state-responsible (prison) bed space needs of the Commonwealth.

There is not enough information available to reliably estimate the increase in jail population as a result of this proposal. However, any increase in jail population will increase costs to the state. The Commonwealth currently pays the localities \$5.00 a day for each misdemeanant or otherwise local-responsible prisoner held in a jail and \$15.00 a day for each state-responsible prisoner. It also funds a considerable portion of the jails' operating costs, e.g., correctional officers. The state's share of these costs on a per prisoner, per day basis varies from locality to locality. However, according to the Compensation Board's most recent Jail Cost Report (November 2024), the estimated total state support for local jails averaged \$56.38 per inmate, per day in FY 2023.

Due to the lack of data, the Virginia Criminal Sentencing Commission has concluded, pursuant to §30-19.1:4 of the Code of Virginia, that the impact of the proposed legislation on state-responsible (prison) bed space cannot be determined. In such cases, Chapter 2, 2024 Acts of Assembly, Special Session I, requires that a minimum impact of \$50,000 be assigned to the bill.

**Other:** This bill is identical to HB 1977.
