

VIRGINIA ACTS OF ASSEMBLY - 2025 SESSION

CHAPTER 97

An Act to amend and reenact §§ 27-95 and 27-97 of the Code of Virginia, relating to Statewide Fire Prevention Code Act; counterfeit and unsafe lighters prohibited.

[H 2642]

Approved March 19, 2025

Be it enacted by the General Assembly of Virginia:

1. That §§ 27-95 and 27-97 of the Code of Virginia are amended and reenacted as follows:

§ 27-95. Definitions.

As used in this chapter, unless the context or subject matter requires otherwise, the following words or terms shall have the meaning herein ascribed to them:

"Board" means the Board of Housing and Community Development.

"Code provisions" means the provisions of the Fire Prevention Code as adopted and promulgated by the Board, and the amendments thereof as adopted and promulgated from time to time by such Board.

"Counterfeit lighter" means any lighter designed in a way that infringes on the intellectual property rights of any citizen of the United States or any entity that is protected by any federal or state intellectual property law.

"Enforcement agency" means the agency or agencies of any local governing body or the State Fire Marshal charged with the administration or enforcement of the Fire Prevention Code.

"Fire Prevention Code" or "Code" means the Statewide Fire Prevention Code.

"Fire prevention regulation" means any law, rule, resolution, regulation, ordinance or code, general or special, or compilation thereof to safeguard life and property from the hazards of fire or explosion arising from the improper maintenance of life safety and fire prevention and protection materials, devices, systems and structures, and the unsafe storage, handling and use of substances, materials and devices, including explosives and blasting agents, wherever located, heretofore or hereafter enacted or adopted by the Commonwealth or any county or municipality, including departments, boards, bureaus, commissions or other agencies.

"Fire Services Board" means the Virginia Fire Services Board as provided for in § 9.1-202.

"Fireworks" means any firecracker, torpedo, skyrocket, or other substance or object, of whatever form or construction, that contains any explosive or inflammable compound or substance, and is intended, or commonly known as fireworks, and which explodes, rises into the air or travels laterally, or fires projectiles into the air.

"Fireworks operator" or "pyrotechnician" means any person engaged in the design, setup, and firing of any fireworks other than permissible fireworks either inside a building or structure or outdoors.

"Inspection warrant" means an order in writing, made in the name of the Commonwealth, signed by any judge or magistrate whose territorial jurisdiction encompasses the building, structure or premises to be inspected or entered, and directed to a state or local official, commanding him to enter and to conduct any inspection, examination, testing or collection of samples for testing required or authorized by the Virginia Statewide Fire Prevention Code.

"Lighter" means any electrical or mechanical device that operates using any type of fuel, including butane or another liquid fuel, and is typically used to light a cigarette, cigar, or pipe.

"Local government" means the governing body of any city, county or town in this Commonwealth.

"Permissible fireworks" means any fountains that do not emit sparks or other burning effects to a distance greater than five meters (16.4 feet); wheels that do not emit a flame radius greater than one meter (39 inches); crackling devices and flashers or strobes that do not emit sparks or other burning effects to a distance greater than two meters (78.74 inches); and sparkling devices or other fireworks devices that (i) do not explode or produce a report, (ii) do not travel horizontally or vertically under their own power, (iii) do not emit or function as a projectile, (iv) do not produce a continuous flame longer than 20 inches, (v) are not capable of being reloaded, and (vi) if designed to be ignited by a fuse, have a fuse that is protected to resist side ignition and a burning time of not less than four seconds and not more than eight seconds.

"State Fire Marshal" means the State Fire Marshal as provided for by § 9.1-206.

"Unsafe lighter" means (i) a disposable or refillable lighter used for cigarettes, cigars, or pipes that does not comply with ASTM International standard F400-20, as amended from time to time, or (ii) a lighter used for utilities, grills, or fireplaces or a lighting rod or gas match that does not comply with ASTM International standard F2201-20, as amended from time to time.

§ 27-97. Adoption of Fire Prevention Code.

The Board of Housing and Community Development is hereby empowered to adopt and promulgate a Statewide Fire Prevention Code which shall be cooperatively developed with the Fire Services Board

pursuant to procedures agreed to by the two Boards. The Fire Prevention Code shall prescribe regulations to be complied with for the protection of life and property from the hazards of fire or explosion and for the handling, storage, sale, and use of fireworks, explosives, or blasting agents, and shall provide for the administration and enforcement of such regulations. The Fire Prevention Code shall require manufacturers of fireworks or explosives, as defined in the Code, to register and report information concerning their manufacturing facilities and methods of operation within the Commonwealth in accordance with regulations adopted by the Board. In addition to conducting criminal background checks pursuant to § 27-97.2, the Board shall also establish regulations for obtaining permits for the manufacturing, storage, handling, use, or sales of fireworks or explosives. In the enforcement of such regulations, the enforcing agency may issue annual permits for such activities to any state regulated public utility. Such permits shall not apply to the storage, handling, or use of explosives or blasting agents pursuant to the provisions of Title 45.2.

The Fire Prevention Code shall prohibit any person, firm, or corporation from transporting, manufacturing, storing, selling, offering for sale, exposing for sale, or buying, using, igniting, or exploding any fireworks except for those persons, firms, or corporations that manufacture, store, market and distribute fireworks for the sole purpose of fireworks displays permitted by an enforcement agency or by any locality.

The Fire Prevention Code shall supersede fire prevention regulations heretofore adopted by local governments or other political subdivisions. Local governments are hereby empowered to adopt fire prevention regulations that are more restrictive or more extensive in scope than the Fire Prevention Code provided such regulations do not affect the manner of construction, or materials to be used in the erection, alteration, repair, or use of a building or structure, including the voluntary installation of smoke alarms and regulation and inspections thereof in commercial buildings where such smoke alarms are not required under the provisions of the Code. The Fire Prevention Code shall prohibit any person not certified by the State Fire Marshal's Office as a fireworks operator or pyrotechnician to design, set up, or conduct or supervise the design, setup, or conducting of any fireworks display, either inside a building or structure or outdoors and shall require that at least one person holding a valid certification is present at the site where the fireworks display is being conducted. Certification shall not be required for the design, storage, sale, use, conduct, transportation, and set up of permissible fireworks or the supervision thereof or in connection with any fireworks display conducted by a volunteer fire department provided one member of the volunteer fire department holds a valid certification.

In formulating the Fire Prevention Code, the Board shall have due regard for generally accepted standards as recommended by nationally recognized organizations including, but not limited to, standards of the International Code Council, the National Fire Protection Association, and recognized organizations issuing standards for the protection of the public from the hazards of explosives and blasting agents. Such standards shall be based on the companion document to the model building code referenced by the Uniform Statewide Building Code.

The Fire Prevention Code shall require that buildings constructed prior to 1973 be maintained in accordance with state fire and public building regulations in effect prior to March 31, 1986, and that any building which is (i) more than 75 feet or more than six stories high and (ii) used, in whole or in part, as a dormitory to house students by any public or private institution of higher education shall be required to comply with the provisions of § 36-99.3. The Fire Prevention Code shall also require annual fire drills in all buildings having floors used for human occupancy located more than 75 feet above the lowest level of fire department vehicle access. The drills shall be conducted by building staff personnel or the owner of the building in accordance with a plan approved by the appropriate fire official and shall not affect other current occupants. The Board may modify, amend, or repeal any Code provisions as the public interest requires. Any such Code changes shall be developed in cooperation with the Fire Services Board pursuant to procedures agreed to by the two Boards.

The Fire Prevention Code shall prohibit the offering or sale to the public of unsafe lighters or counterfeit lighters regardless of whether such offering or sale is conducted on a retail basis or wholesale basis; however, the Fire Prevention Code shall not prohibit (i) the interstate transportation of counterfeit lighters or unsafe lighters through the Commonwealth or (ii) the storage of counterfeit lighters or unsafe lighters in any distribution center or warehouse located in the Commonwealth, if such distribution center or warehouse is closed to the public and does not distribute or sell such lighters to the public.
