HB173

59 no less than three, documented serious violations verified through reliable evidence.

60 G. Upon statewide implementation of the program, the Department shall collect and annually publish
61 data, disaggregated by facility and by month, that includes the (i) total number of in-person visits; (ii)
62 number of unique visitors and the age of each visitor; (iii) reasons for visit denials, suspensions, or
63 terminations; (iv) average visit duration; (v) capacity and utilization rates; and (vi) results of visitor and
64 correctional facility resident feedback surveys conducted not more than once each year. Data shall, to the
65 extent practicable, be derived from existing management-information systems and records maintained by the
66 Department. The Department shall submit an annual report containing the enumerated data to the Chairs of
67 the House Committee on Public Safety, the Senate Committee on Rehabilitation and Social Services, and the
68 House and Senate Committees for Courts of Justice. The report shall be made publicly available on the
69 Department's website.

70 The Department shall include in its annual report a distinct section summarizing the results of any pilot
71 programs conducted pursuant to subsection E, including visitation frequency, operational challenges,
72 staffing needs, and safety outcomes. Such findings shall also be published on the Department's publicly
73 accessible website.

74 H. The Department shall develop and submit to the Secretary of Public Safety and Homeland Security and
75 the Chairs of the House Committee on Public Safety, the Senate Committee on Rehabilitation and Social
76 Services, and the House and Senate Committees for Courts of Justice a phased implementation plan to
77 restore visitation to pre-2019 levels by January 1, 2028. Implementation of this section is subject to the
78 availability of appropriations.

79 I. The following procedures regarding individuals who are physically present at a state correctional
80 facility for the purpose of visiting a prisoner shall apply:

81 1. Upon entry into a state correctional facility, visitors shall be informed of the items that they are not
82 permitted to bring into the facility and the items that are permitted to bring into the facility.

83 2. If an item that is otherwise legal for the visitor to possess is not permitted in the facility, the item may
84 be placed in the possession of facility employees, if the facility is able to store such item, for the duration of
85 the visit and returned to the visitor upon leaving the facility.

86 3. If equipment is available, visitors shall be scanned or wanded by an electronic scanning or detection
87 device, or both.

88 4. If detector canines are available, visitors shall be subjected to a detector canine search.

89 5. If the detector canine search, scanning, or wanding does not indicate any contraband and the visitor is
90 otherwise eligible to visit, the visitor shall be allowed a visit with the prisoner that allows personal contact.

91 6. If the detector canine search, scanning, or wanding indicates the possibility of contraband, the visitor
92 shall have the option of consenting to a search of his person. If the visitor does not consent to a search of his
93 person after only a detector canine search indicates the possibility of contraband and the visitor is otherwise
94 eligible to visit, he shall be allowed a visit with the prisoner that does not allow personal contact. If the visitor
95 does not consent to a search of his person after scanning or wanding indicates the possibility of contraband,
96 the Department may deny the visitor entry into the facility in accordance with the operating procedures
97 regarding visiting privileges as authorized by § 53.1-30. *The discovery of contraband shall trigger a facility*
98 *investigative review regardless of the source of such contraband. If contraband entry is found to originate*
99 *from facility staff or internal operations, visitation privileges of uninvolved individuals shall not be restricted*
100 *absent direct evidence of the individual's involvement.*

101 7. A visitor shall be allowed to leave the correctional facility and discontinue the search process prior to
102 the discovery of contraband. A visitor shall not be barred from future visits because he stops a search prior to
103 the discovery of contraband or refuses to consent to a search of his person, including refusing to consent to a
104 strip search or a search of any body cavity. Correctional facility personnel shall not use the search procedure
105 or search results as a threat to bar future visits. The superintendent, warden, or other official in charge of the
106 facility shall ensure that correctional facility personnel do not use the search procedure or search results as a
107 threat to bar future visits.

108 J. *Nothing in this section shall be construed to limit or duplicate the oversight authority of the State Board*
109 *or any other entity empowered by law to review correctional operations.*
