10 **Be it enacted by the General Assembly of Virginia:**

11 **1. That the Code of Virginia is amended by adding a section numbered 22.1-272.1:2 as follows:**

12 *§ 22.1-272.1:2. Public school students in grades six through 12; annual mental health screening; statewide tool, guidance, and model procedures.*

13 A. The purpose of this section is to establish a student mental health screening program that is designed
14 to identify potential risks related to unmet mental or emotional health needs of students in grades six through
15 12 so that the parents of a student who has a mental or emotional health concern can be provided with
16 resources and referrals to address the student's mental or emotional health concern.

17 B. The Board, in consultation with the Department of Behavioral Health and Developmental Services and
18 any other stakeholder that the Board deems appropriate, shall:

19 1. Develop, identify, or procure and make available to each school board at no cost an evidence-based
20 tool or evidence-based tools for the mental health screening of each public school student in grades six
21 through 12;

22 2. Develop, adopt, distribute to each school board, and post publicly and conspicuously on its website
23 guidance and model procedures for the annual student mental health screenings required to be performed
24 pursuant to subsection C. Such guidance and model procedures, at minimum, shall include the option and a
25 procedure for parents to opt their children out of such requirements within the first two weeks of the start of
26 the school year and recommendations for training in the effective administration of the screening tool
27 developed or adopted pursuant to this subsection and shall address confidentiality and privacy
28 considerations, the sharing of data, the storage of mental health screening results, plans for follow-up and
29 linkage to resources after screenings, and communication with families about the administration and results
30 of such screenings; and

31 3. Ensure that such annual mental health screenings are conducted in a manner that (i) accommodates
32 bilingual students and students with developmental disabilities, intellectual disabilities, or low reading
33 proficiency; (ii) protects the privacy of the student during the screening process and the confidentiality of the
34 results; and (iii) and permits real-time evaluation of the screening results and same-day intervention by a
35 licensed mental health professional as indicated by such screening.

36 C. Each school board shall ensure that each student in grades six through 12 in the local school division
37 is screened at least annually using such screening tool, unless the student's parents opt the student out of
38 such screening.

39 **2. That the Board of Education shall satisfy the requirements set forth in subsection B of**
40 **§ 22.1-272.1:2, as created by this act, no later than September 1, 2027.**

41 **3. That the requirements of subsection C of § 22.1-272.1:2, as created by this act, shall become effective**
42 **beginning with the 2028–2029 school year.**
