Transient Occupancy Tax

Under current law, any county may, upon the adoption of an ordinance, impose a transient occupancy tax on hotels, motels, boarding houses, travel campgrounds, and other facilities offering guest rooms. The tax, however, does not apply to rooms rented on a continuous basis by the same individual or group for 30 or more continuous days. The tax applies to rooms intended or suitable for dwelling and sleeping. Therefore, the tax does not apply to rooms used for alternative purposes, such as banquet rooms and meeting rooms. Cities or towns may impose excise taxes on transient room rentals of privately owned accommodations and travel campgrounds. There are no restrictions as to the rate of tax that may be imposed by any locality. However, revenue generated by a rate between two and five percent must be used by the locality for tourism and travel marketing. Revenues from taxes levied in excess of five percent may be used as general fund revenues by the locality.

Arlington County has also been authorized to impose an additional transient occupancy tax at a maximum rate of 0.25 percent of the amount of the charge for accommodations since 2018. The revenue from this additional tax must be used for promoting tourism and business travel within the county.

Arlington County currently imposes its local transient occupancy tax at a rate of 5.25 percent.

Proposal

This bill would allow Arlington County to increase its additional transient occupancy tax rate from one-fourth of one percent to one percent.

If enacted during the regular session of the 2026 General Assembly session this bill would become effective July 1, 2026.
