Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 1 of Chapter 18 of Title 63.2 a section numbered 63.2-1808.2 as follows:

§ 63.2-1808.2. Electronic monitoring in resident rooms.

A. As used in this section:

"Electronic monitoring" means the use of a surveillance device with a fixed position video camera or audio recording device, or a combination thereof, which is installed in a resident's room and broadcasts or records activities or sounds occurring within the confines of the room. "Electronic monitoring" does not include use of a device that enables audio communication into the resident's room from another source.

"Family member" means the resident's spouse, parent, stepparent, child, stepchild, sibling, half-sibling, grandparent, or grandchild.

"Legal representative" means a person legally responsible for representing or standing in the place of the resident for the conduct of his affairs. This may include a guardian, conservator, attorney-in-fact under durable power of attorney, trustee, or other person expressly named by a court of competent jurisdiction or the resident as his agency in a legal document that specifies the scope of the representative's authority to act. A legal representative may only represent or stand in the place of a resident for the function for which he has legal authority to act.

B. All requests for electronic monitoring shall be made in writing and signed by the resident or, if the resident has been legally deemed incompetent, the resident's legal representative. Only electronic monitoring in accordance with this section is permitted.

Electronic monitoring shall be permitted only:

1. Upon the informed consent of the resident or resident's legal representative, which shall be obtained prior to the installation or use of any electronic monitoring device. Consent for electronic monitoring shall be kept in the resident's record;

2. When the resident resides:

a. In a room with no roommates; or

b. In a room with any roommates and obtains written consent to visual recording from such roommates or, if any roommate has been legally deemed incompetent, such roommate's legal representative. When a resident resides with any roommates, only video electronic monitoring shall be permitted pursuant to this subsection;

3. Upon execution of an agreement for the sharing and release of medical data and information protected by the federal Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. § 1320d et seq.) signed by the resident or resident's legal representative or, if applicable, any such agreement signed by any roommate or roommate's legal representative shall be kept in all consenting individuals' records; and

4. When the assisted living facility has secured and password-protected wireless internet access or other means available to operate the electronic monitoring device without modification to the assisted living facility or a change in level or capacity of internet access.

C. An assisted living facility shall allow electronic monitoring of a resident of an assisted living facility if the electronic monitoring is conducted in accordance with this section. An assisted living facility shall not refuse to admit an individual and shall not discharge or transfer a resident due to a request to conduct authorized electronic monitoring.

D. Family members shall not implement or activate electronic monitoring over the objections of or contrary to the instructions of the resident or the resident's legal representative. No electronic monitoring equipment may be installed over the objections of or contrary to the instructions of the resident or resident's legal representative.

E. Assisted living facilities shall designate one or more staff persons to be the point of contact for electronic monitoring requests and for providing information and policies upon request during normal business hours.
