

26105451D

1 **HOUSE BILL NO. 1337**

2 Offered January 19, 2026

3 A BILL to amend and reenact §§ 32.1-102.1, 32.1-102.2, and 32.1-102.2:1 of the Code of Virginia, relating
4 to certificate of public need; medical deserts; expedited review; duties of the State Health Services Plan
5 Task Force.

6 Patron—Clark

7 Committee Referral Pending

8 **Be it enacted by the General Assembly of Virginia:**9 1. That §§ 32.1-102.1, 32.1-102.2, and 32.1-102.2:1 of the Code of Virginia are amended and reenacted
10 as follows:11 **§ 32.1-102.1. Definitions.**

12 As used in this article, unless the context indicates otherwise:

13 "Application" means a prescribed format for the presentation of data and information deemed necessary
14 by the Board to determine a public need for a project.15 "Bad debt" means revenue amounts deemed uncollectable as determined after collection efforts based
16 upon sound credit and collection policies.

17 "Certificate" means a certificate of public need for a project required by this article.

18 "Charity care" means health care services delivered to a patient who has a family income at or below 200
19 percent of the federal poverty level and for which it was determined that no payment was expected (i) at the
20 time the service was provided because the patient met the facility's criteria for the provision of care without
21 charge due to the patient's status as an indigent person or (ii) at some time following the time the service was
22 provided because the patient met the facility's criteria for the provision of care without charge due to the
23 patient's status as an indigent person. "Charity care" does not include care provided for a fee subsequently
24 deemed uncollectable as bad debt. For a nursing home as defined in § 32.1-123, "charity care" means care at
25 a reduced rate to indigent persons.26 "Clinical health service" means a single diagnostic, therapeutic, rehabilitative, preventive or palliative
27 procedure or a series of such procedures that may be separately identified for billing and accounting
28 purposes.29 "Health planning region" means a contiguous geographical area of the Commonwealth with a population
30 base of at least 500,000 persons which is characterized by the availability of multiple levels of medical care
31 services, reasonable travel time for tertiary care, and congruence with planning districts.32 "Medical desert" means a planning district where each county and city located within the planning
33 district has been designated as at least one of the following Health Professional Shortage Area Designations
34 for primary care by the U.S. Health Resources and Services Administration:

35 1. Geographic;

36 2. Low Income; or

37 3. High Needs Geographic.

38 "Project" means any action described in subsection B of § 32.1-102.1:3.

39 "Regional health planning agency" means the regional agency, including the regional health planning
40 board, its staff and any component thereof, designated by the Virginia Health Planning Board to perform the
41 health planning activities set forth in this chapter within a health planning region.42 "State Health Services Plan" means the planning document adopted by the Board of Health which shall
43 include, but not be limited to, (i) methodologies for projecting need for each type of medical care facility
44 described in subsection A of § 32.1-102.1:3 and each type of project described in subsection B of
45 § 32.1-102.1:3; (ii) statistical information on the availability of each type of medical care facility described in
46 subsection A of § 32.1-102.1:3 and each type of project described in subsection B of § 32.1-102.1:3; and (iii)
47 procedures, criteria, and standards for review of applications for projects for each type of medical care facility
48 described in subsection A of § 32.1-102.1:3 and each type of project described in subsection B of
49 § 32.1-102.1:3.50 **§ 32.1-102.2. Regulations.**

51 A. The Board shall promulgate regulations that are consistent with this article and:

52 1. Shall establish concise procedures for the prompt review of applications for certificates consistent with
53 the provisions of this article which may include a structured batching process which incorporates, but is not
54 limited to, authorization for the Commissioner to request proposals for certain projects. In any structured
55 batching process established by the Board, applications, combined or separate, for computed tomographic
56 (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, radiation
57

HB1337

59 therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other
60 medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation
61 therapy, and proton beam therapy shall be considered in the radiation therapy batch. A single application may
62 be filed for a combination of (i) radiation therapy, stereotactic radiotherapy other than radiotherapy
63 performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy
64 X-rays to perform external beam radiation therapy, and proton beam therapy and (ii) any or all of the
65 computed tomographic (CT) scanning, magnetic resonance imaging (MRI), and positron emission
66 tomographic (PET) scanning;

67 2. May classify projects and may eliminate one or more or all of the procedures prescribed in § 32.1-102.6
68 for different classifications;

69 3. May provide for exempting from the requirement of a certificate projects determined by the
70 Commissioner, upon application for exemption, to be subject to the economic forces of a competitive market
71 or to have no discernible impact on the cost or quality of health services;

72 4. May establish a schedule of fees for applications for certificates or registration of a project to be applied
73 to expenses for the administration and operation of the Certificate of Public Need Program;

74 5. Shall establish an expedited application and review process for any certificate for projects reviewable
75 pursuant to (i) subdivision B 1 of § 32.1-102.1:3 for the establishment of a new medical care facility
76 described in subdivision A 2 of § 32.1-102.1:3 by an existing medical care facility described in subdivision A
77 1 or 2 of § 32.1-102.1:3 that has an existing certificate to provide psychiatric services pursuant to subdivision
78 B 6 of § 32.1-102.1:3, provided such new medical care facility is located in the same planning district as the
79 existing medical care facility; (ii) subdivision B 2 of § 32.1-102.1:3 for the addition of psychiatric beds at an
80 existing medical care facility described in subdivision A 1 or 2 of § 32.1-102.1:3 that has an existing
81 certificate to provide psychiatric services pursuant to subdivision B 5 of § 32.1-102.1:3, not to exceed 10
82 beds or 10 percent of all beds at the medical care facility, whichever is greater, and provided that the
83 applicant has not been awarded a certificate for the addition of psychiatric beds pursuant to this provision in
84 the previous two-year period; (iii) subdivision B 3 of § 32.1-102.1:3 for the relocation of psychiatric beds to
85 an existing medical care facility described in subdivision A 1 or 2 of § 32.1-102.1:3 that has had an existing
86 certificate to introduce a psychiatric service for at least the previous 12 months pursuant to subdivision B 5 of
87 § 32.1-102.1:3 and that is within the same planning district; (iv) ~~and~~ subdivision B 8 of § 32.1-102.1:3; and
88 (v) *projects that are located within a medical desert.* Regulations establishing the expedited application and
89 review procedure shall include provisions for (a) notice and opportunity for public comment on the
90 application for a certificate, (b) a review cycle that is complete within 90 days, (c) the filing of an expedited
91 application in four batch cycles specifically for expedited applications, (d) the ability of a member of the
92 public to request a public hearing for the expedited application, and (e) criteria pursuant to which an
93 application that would normally undergo the review process would instead undergo the full certificate of
94 public need review process set forth in § 32.1-102.6;

95 6. Shall establish an exemption from the requirement for a certificate for a project involving a temporary
96 increase in the total number of beds in an existing hospital or nursing home, including a temporary increase in
97 the total number of beds resulting from the addition of beds at a temporary structure or satellite location
98 operated by the hospital or nursing home, provided that the ability remains to safely staff services across the
99 existing hospital or nursing home, (i) for a period of no more than the duration of the Commissioner's
100 determination plus 30 days when the Commissioner has determined that a natural or man-made disaster has
101 caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a
102 shortage of hospital or nursing home beds or (ii) for a period of no more than the duration of the emergency
103 order entered pursuant to § 32.1-13 or 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the
104 Commissioner, pursuant to § 32.1-20, has entered an emergency order for the purpose of suppressing a
105 nuisance dangerous to public health or a communicable, contagious, or infectious disease or other danger to
106 the public life and health; and

107 7. Shall require every medical care facility subject to the requirements of this article, other than a nursing
108 home, that is not a medical care facility for which a certificate with conditions imposed pursuant to
109 subsection B of § 32.1-102.4 has been issued and that provides charity care, as defined in § 32.1-102.1, to
110 annually report the amount of charity care provided.

111 B. The Board shall promulgate regulations providing for time limitations for schedules for completion and
112 limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The
113 Commissioner shall not approve any such extension or excess unless it complies with the Board's regulations.
114 However, the Commissioner may approve a significant change in cost for an approved project that exceeds
115 the authorized capital expenditure by more than 20 percent, provided the applicant has demonstrated that the
116 cost increases are reasonable and necessary under all the circumstances and do not result from any material
117 expansion of the project as approved.

118 C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval of a
119 certificate on the agreement of the applicant to provide a level of charity care to indigent persons or accept
120 patients requiring specialized care. Such regulations shall include a methodology and formulas for uniform

121 application of, active measuring and monitoring of compliance with, and approval of alternative plans for
 122 satisfaction of such conditions. In addition, the Board's licensure regulations shall direct the Commissioner to
 123 condition the issuing or renewing of any license for any applicant whose certificate was approved upon such
 124 condition on whether such applicant has complied with any agreement to provide a level of charity care to
 125 indigent persons or accept patients requiring specialized care. Except in the case of nursing homes, the value
 126 of charity care provided to individuals pursuant to this subsection shall be based on the provider
 127 reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement
 128 under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

129 D. The Board shall also promulgate regulations to require the registration of a project; for introduction
 130 into an existing medical care facility of any new lithotripsy, stereotactic radiosurgery, stereotactic
 131 radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of
 132 high-energy X-rays to perform external beam radiation therapy, obstetrical, or nuclear imaging services that
 133 the facility has never provided or has not provided in the previous 12 months; and for the addition by an
 134 existing medical care facility of any medical equipment for lithotripsy, stereotactic radiosurgery, stereotactic
 135 radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of
 136 high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services. Replacement of
 137 existing equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy other than radiotherapy
 138 performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy
 139 X-rays to perform external beam radiation therapy, or nuclear imaging services shall not require registration.
 140 Such regulations shall include provisions for (i) establishing the agreement of the applicant to provide a level
 141 of care in services or funds that matches the average percentage of indigent care provided in the appropriate
 142 health planning region and to participate in Medicaid at a reduced rate to indigents, (ii) obtaining
 143 accreditation from a nationally recognized accrediting organization approved by the Board for the purpose of
 144 quality assurance, and (iii) reporting utilization and other data required by the Board to monitor and evaluate
 145 effects on health planning and availability of health care services in the Commonwealth.

146 **§ 32.1-102.2:1. State Health Services Plan; Task Force.**

147 A. The Board shall appoint and convene a State Health Services Plan Task Force (*the Task Force*) for the
 148 purpose of advising the Board on the content of the State Health Services Plan. The Task Force shall provide
 149 recommendations related to (i) periodic revisions to the State Health Services Plan, (ii) specific objective
 150 standards of review for each type of medical care facility or project type for which a certificate of public need
 151 is required, (iii) project types that are generally noncontested and present limited health planning impacts, (iv)
 152 whether certain projects should be subject to expedited review rather than the full review process, and (v)
 153 improvements in the certificate of public need process. All such recommendations shall be developed in
 154 accordance with an analytical framework established by the Commissioner that includes a specific evaluation
 155 of whether State Health Services Plan standards are consistent with the goals of (a) meeting the health care
 156 needs of the indigent and uninsured citizens of the Commonwealth, (b) protecting the public health and safety
 157 of the citizens of the Commonwealth, (c) promoting the teaching missions of academic medical centers and
 158 private teaching hospitals, and (d) ensuring the availability of essential health care services in the
 159 Commonwealth, and are aligned with the goals and metrics of the Commonwealth's State Health
 160 Improvement Plan.

161 B. The Task Force shall consist of no fewer than 19 individuals appointed by the Commissioner who are
 162 broadly representative of the interests of all residents of the Commonwealth and of the various geographic
 163 regions, including two representatives of the Virginia Hospital and Healthcare Association, the Medical
 164 Society of Virginia, the Virginia Health Care Association, and physicians or administrators representing
 165 teaching hospitals affiliated with a public institution of higher education; one representative each of the
 166 Virginia Association of Health Plans, the Virginia Association of Free and Charitable Clinics, the Virginia
 167 Community Healthcare Association, LeadingAge Virginia, a company that is self-insured or full-insured for
 168 health coverage, a nonprofit organization located in the Commonwealth that engages in addressing access to
 169 health coverage for low-income individuals, and a rural locality recognized as a medically underserved area;
 170 one individual with experience in health facilities planning; and such other individuals as the Commissioner
 171 determines is appropriate.

172 C. The powers and duties of the Task Force shall be:

173 1. To develop, by November 1, 2022, recommendations for a comprehensive State Health Services Plan
 174 for adoption by the Board that includes (i) specific formulas for projecting need for medical care facilities and
 175 services subject to the requirement to obtain a certificate of public need, (ii) current statistical information on
 176 the availability of medical care facilities and services, (iii) objective criteria and standards for review of
 177 applications for projects for medical care facilities and services, and (iv) methodologies for integrating the
 178 goals and metrics of the State Health Improvement Plan established by the Commissioner into the criteria and
 179 standards for review. Criteria and standards for review included in the State Health Services Plan shall take
 180 into account current data on drive times, utilization, availability of competing services, and patient choice
 181 within and among localities included in the health planning district or region; changes and availability of new
 182 technology; and other relevant factors identified by the Task Force. The State Health Services Plan shall also

183 include specific criteria for determining need in rural areas *and medical deserts*, giving due consideration to
184 distinct and unique geographic, socioeconomic, cultural, transportation, and other barriers to access to care in
185 such areas and providing for weighted calculations of need based on the barriers to health care access in such
186 rural areas *and medical deserts* in lieu of the determinations of need used for the particular proposed project
187 within the relevant health planning district or region as a whole;

188 2. To engage the services of private consultants or request the Department to contract with any private
189 organization for professional and technical assistance and advice or other services to assist the Task Force in
190 carrying out its duties and functions pursuant to this section. The Task Force may also solicit the input of
191 experts with professional competence in the subject matter of the State Health Services Plan, including (i)
192 representatives of licensed health care providers or health care provider organizations owning or operating
193 licensed health facilities and (ii) representatives of organizations concerned with health care consumers and
194 the purchasers and payers of health care services; and

195 3. To review annually and, if necessary, develop recommendations for revisions to each section of the
196 State Health Services Plan on a rotating schedule defined by the Task Force at least every two years
197 following the last date of adoption by the Board.

198 D. The Task Force shall exercise its powers and carry out its duties to ensure:

199 1. The availability and accessibility of quality health services at a reasonable cost and within a reasonable
200 geographic proximity for all people in the Commonwealth, competitive markets, and patient choice;

201 2. Appropriate differential consideration of the health care needs of residents in rural localities in ways
202 that do not compromise the quality and affordability of health care services for those residents;

203 3. Elimination of barriers to access to care and introduction and availability of new technologies and care
204 delivery models that result in greater integration and coordination of care, reduction in costs, and
205 improvements in quality; and

206 4. Compliance with the goals of the State Health Services Plan and improvement in population health.

207 E. The Department shall post on its website information regarding the process by which the State Health
208 Services Plan is created and the process by which the Department determines whether a proposed project
209 complies with the State Health Services Plan on its website.
