Bill Number: HB391 **Patron:** Askew
Bill Title: Medical cannabis program; product labels; delivery.

Bill Summary: Changes the requirements for what is included on medical cannabis product labels affixed by pharmaceutical processors to include (i) the total milligrams of tetrahydrocannabinol (THC) and cannabidiol (CBD) included in the edible cannabis product or topical cannabis product, both defined in the bill; (ii) the number of milligrams of THC and CBD in each serving of the edible cannabis product or topical cannabis product; and (iii) the total percentage of THC and CBD included in the inhalable cannabis product, defined in the bill. Under current law, the product label of any medical cannabis product is required to include the total percentage and milligrams of THC and CBD included in the product and the number of milligrams of THC and CBD in each serving.

The bill also allows a pharmaceutical processor or cannabis dispensing facility to dispense or deliver cannabis products in person to a patient or such patient's registered agent, parent, or legal guardian at any residence, including a temporary residence or business. However, the bill prohibits dispensing or delivering cannabis products to (a) any military base, child day center, school, or correctional facility; (b) the State Capitol; or (c) any public gathering places, including sporting events, festivals, fairs, races, concerts, and terminals of public transportation companies. The bill also specifies that all transportation or delivery of usable cannabis, botanical cannabis, cannabis oil, or cannabis products, whether by an employee or delivery agent, shall comply with all relevant laws and regulations and provides that the Board of Directors of the Virginia Cannabis Control Authority may suspend or revoke the privileges of any employee or delivery agent to transport or deliver such products for failure to comply. The bill contains technical amendments.
