§ 9.1-1601. Virginia Public-Private Safety Communications Infrastructure Fund.

A. With funds appropriated for such purpose, there is hereby created in the state treasury a special nonreverting fund to be known as the Virginia Public-Private Safety Communications Infrastructure Fund. The Fund shall be established on the books of the Comptroller and shall be administered and financially managed by the Department. All funds appropriated for such purpose, receipts from and income from the investment of funds in the Fund, and any gifts, donations, grants, bequests, and other funds received on its behalf from any source, public or private, shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely for purposes of awarding grants on a competitive basis to local governments pursuant to subsection B. However, no more than 15 percent of unobligated moneys in the Fund shall be allocated for grant uses, and in no case shall grants from the Fund be used to fund the entire cost of an approved local project. Expenditures and disbursements from the Fund

59 shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by
60 the Director.

61 B. Grants shall be awarded on a competitive basis from such funds as may be available from the Fund to
62 localities for the purpose of assisting with improvement projects relating to public safety standards-based
63 radio and communications infrastructure. The Department shall establish and publish guidelines and criteria
64 for grant awards, including guidelines and criteria governing applications to the Department and grant
65 recipients relating to improvements to public safety radio and communications infrastructure; develop
66 funding recommendations; and provide assistance and oversight for projects funded through the Fund. The
67 Department shall prioritize projects that (i) serve law-enforcement, fire, rescue, and emergency medical
68 services; (ii) provide comprehensive interoperability across multiple localities or a region; (iii) serve areas
69 with a high fiscal stress index score; (iv) are regionally based and applied for jointly by relevant localities in
70 such region; and (v) incorporate mission critical standards-based voice-only communications, including
71 mapping, location, photo, video, and other multimedia data. The Department shall oversee each grant
72 awarded from the Fund and ensure thorough reporting on each such grant.
