

**Department of Planning and Budget**  
**2026 General Assembly Session**  
**State Fiscal Impact Statement**

---

**PUBLISHED: 1/20/2026 1:19 PM**

**ORIGINAL**

**Bill Number:** HB668

**Patron:** Maldonado

**Bill Title:** Use of artificial intelligence system by mental health service providers; civil penalty.

**Bill Summary:** Permits the use of an artificial intelligence system by mental health service providers for administrative support and supplementary support, as those terms are defined in the bill, and prohibits the use of an artificial intelligence system to provide therapy or counseling services without a mental health service provider. The bill specifies that records kept by mental health service providers must comply with health records privacy requirements; creates an exception for religious counseling, peer support, or self-help materials and educational resources; and establishes a civil penalty not to exceed \$10,000 for violations of the statute.

**Budget Amendment Necessary:** No

**Items Impacted:** n/a

**Fiscal Summary:** Any fiscal impacts to the Department of Health Professions are expected to be minimal and absorbable within existing resources. Any increase to general fund revenue is indeterminate.

**Fiscal Analysis:** This bill clarifies various settings in which a mental health service provider may use artificial intelligence and establishes a civil penalty not to exceed \$10,000 for any person violating the provisions of the bill.

The Department of Health Professions' (DHP) Enforcement Division is responsible for conducting investigations regarding alleged practitioner misconduct or violations of applicable law and regulations. If a complaint is found to have validity, the appropriate health regulatory board is responsible for administering disciplinary action. This legislation may result in new complaints being submitted to DHP for review regarding the improper use of artificial intelligence by mental health service providers. It is expected that any workload or cost increase related to the volume of complaints received can be absorbed within existing resources.

Additionally, DHP is required to collect any penalties that result from violations of the provisions of this bill and deposit any monies received to the general fund. Because DHP does not retain penalties collected, it is not expected that this legislation will result in a revenue increase to DHP. Any increase to general fund revenue that may result from the collection of civil penalties under this bill is indeterminate.

**Other:** HB668 may be a companion to SB269.
