<b>TOTAL</b>	<b>\$5,454</b>	<b>\$2,954</b>	<b>\$2,954</b>		-	-

**Fiscal Analysis:** This bill mandates that the Department of Elections (ELECT) provides a free standardized identification badge to electoral board members of each locality. Electoral board members will be required to wear such identification while conducting their official duties on the day of an election subject to a civil penalty. ELECT must supply each electoral board member (399) with an identification badge in the most cost-effective manner. ELECT will review processing the badges with internal staff or as a contract. Based on the retail cost of the equipment, ELECT estimates that the cost will be \$2,500 (one time) for an ID card printer, printer supplies \$650 (Ribbion/Blank Badge/holder), and Postage (courier service) \$2,304. ELECT will also explore contracting out the service with other state agencies or an outside vendor. The current estimated contract retail cost to produce each identification card is \$15.99 less postage. Using 459 as the annual number of identification cards needed the cost to the Department of Elections would be \$7,339 annually. Elections assume a replacement rate of fifteen percent for changes in boards and card replacement. While these retail cost estimates are the best available at this time, ELECT anticipates that the actual costs for a contract will likely be lower.
