

SENATE BILL NO. 221

AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the Senate Committee on Transportation

on January 23, 2026)

(Patron Prior to Substitute—Senator Jones)

A BILL to amend and reenact § 46.2-873 of the Code of Virginia, relating to school crossing zones; active times.

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-873 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-873. Maximum speed limits at school crossings; penalty.

11 A. For the purposes of this section, "school crossing zone" means an area located within the vicinity of a
12 school at or near a highway where the presence of children on such school property or going to and from
13 school reasonably requires a special warning to motorists. Such zones are marked and operated in accordance
14 with the requirements of this section with appropriate warning signs or other traffic control devices indicating
15 that a school crossing is in progress.

16 B. The maximum speed limit shall be 25 miles per hour between portable signs, tilt-over signs, or fixed
17 blinking signs placed in or along any highway and bearing the word "school" or "school crossing." Any signs
18 erected under this section shall be placed not more than 750 feet from the limits of the school property or
19 crossing in the vicinity of the school. However, "school crossing" signs may be placed in any location if the
20 Department of Transportation or the council of the city or town or the board of supervisors of a county
21 maintaining its own system of secondary roads approves the crossing for such signs. If the portion of the
22 highway to be posted is within the limits of a city or town, such portable signs shall be furnished and
23 delivered by such city or town. If the portion of highway to be posted is outside the limits of a city or town,
24 such portable signs shall be furnished and delivered by the Department of Transportation. The principal or
25 chief administrative officer of each school or a school board designee, preferably not a classroom teacher,
26 shall place such portable signs in the highway at a point not more than 750 feet from the limits of the school
27 property and remove such signs when their presence is no longer required by this section. Such portable
28 signs, tilt-over signs, or fixed blinking signs shall be placed in a position plainly visible to vehicular traffic
29 approaching from either direction, but shall not be placed so as to obstruct the roadway.

30 C. Such portable signs, tilt-over signs, or blinking signs shall be in a position, or be turned on, for 30

31 minutes preceding regular school hours, for 30 minutes thereafter, and during such other times as the
32 presence of children on such school property or going to and from school reasonably requires a special
33 warning to motorists. The governing body of any county, city, or town may, however, decrease the period of
34 time preceding and following regular school hours during which such portable signs, tilt-over signs, or
35 blinking signs shall be in position or lit if it determines that no children will be going to or from school during
36 the period of time that it subtracts from the 30-minute period. *Additionally, the governing body of any county,*
37 *city, or town may, by ordinance, increase the period of time preceding and following regular school hours*
38 *during which such portable signs, tilt-over signs, or blinking signs shall be in position or lit to a maximum of*
39 *60 minutes if it determines that children will be going to or from school during that period of time.*

40 D. The governing body of any city or town may, if the portion of the highway to be posted is within the
41 limits of such city or town, increase or decrease the speed limit provided in this section only after justification
42 for such increase or decrease has been shown by an engineering and traffic investigation, and no such
43 increase or decrease in speed limit shall be effective unless such increased or decreased speed limit is
44 conspicuously posted on the portable signs, tilt-over signs, or fixed blinking signs required by this section.

45 E. The governing body of a county within Planning District 8 may, if the portion of the highway to be
46 posted is within the limits of such county, increase or decrease the speed limit provided in this section only
47 after justification for such increase or decrease has been shown by an engineering and traffic investigation,
48 and no such increase or decrease in speed limit shall be effective unless such increased or decreased speed
49 limit is conspicuously posted on the portable signs, tilt-over signs, or fixed blinking signs required by this
50 section.

51 F. The City of Virginia Beach may establish school zones as provided in this section and mark such zones
52 with flashing warning lights as provided in this section on and along all highways adjacent to Route 58.

53 G. Any person operating any motor vehicle in excess of a maximum speed limit established specifically
54 for a school crossing zone when such school crossing zone is (i) indicated by appropriately placed signs
55 displaying the maximum speed limit and (ii) in operation pursuant to subsection B shall be guilty of a traffic
56 infraction punishable by a fine of not more than \$250, in addition to other penalties provided by law.

57 H. Notwithstanding the foregoing provisions of this section, the maximum speed limit in school zones in
58 residential areas may be decreased to 15 miles per hour if (i) the school board having jurisdiction over the
59 school nearest to the affected school zone passes a resolution requesting the reduction of the maximum speed

60 limit for such school zone from 25 miles per hour to 15 miles per hour and (ii) the local governing body of
61 the jurisdiction in which such school is located enacts an ordinance establishing the speed-limit reduction
62 requested by the school board.
