

## Fiscal Impact Statement for Proposed Legislation

### Virginia State Corporation Commission

Published: February 1, 2026

## House Bill 1360

**Version:** Introduced

**Patron:** Shin

**Title:** Policy of the Commonwealth regarding investor-owned electric utilities; State Corporation Commission to investigate certain practices.

**Summary:** States that it shall be the policy of the Commonwealth that no investor-owned electric utility operating in the Commonwealth shall engage in practices that distort wholesale energy markets. The bill directs the State Corporation Commission to investigate and remedy any such practices by investor-owned electric utilities in the Commonwealth. The bill also creates a rebuttable presumption for cost recovery proceedings initiated after January 1, 2026, that certain costs are unreasonable and imprudent in situations where the investor-owned electric utility operates an electric generation facility when the marginal operating costs of such facility are higher than the energy market clearing price set by the regional transmission entity.

**Effective Date(s):** July 1, 2026

**Amendment Necessary:** ☒ Budget, Item 475

### Fiscal Analysis

#### Revenue

When considered individually, the SCC can meet this bill's requirements with the adjustments identified in the fiscal impact summary table and within its existing funding authority. If enacted, the SCC will review operational and fiscal impacts of this legislation along with other enacted 2026 electric utility bills to determine implementation.
