### *Fiscal Analysis*

---

#### **Revenue**

When considered individually, the State Corporation Commission (SCC) can meet the requirements of this bill with the adjustments identified in the fiscal impact summary table and within its existing funding authority. If enacted, the SCC

will review operational and fiscal impacts of this legislation along with other enacted 2026 electric utility bills to determine implementation.

## **Expenditures**

---

To meet the requirements of this bill, the SCC will need to hire one full-time employee.

## **Change in FTE**

---

This bill will require an additional full-time employee for the SCC.

## **Other Comments**

---

The SCC is already annually handling Demand Side Management (DSM) proceedings and Energy Efficient (EE) target proceedings, a new EE Potential Study that will result in additional proceedings. Adding any additional requirements to the DSM proceedings for additional investigation by Staff will have the effect of increasing existing workload.
