**Fiscal Analysis:** This bill will require the Department of Elections (ELECT) to modify how information from the Systematic Alien Verification for Entitlements Program (SAVE Program) operated by U.S. Citizenship and Immigration Services of the U.S. Department of Homeland Security is used to include uploading of information. The request for the bill does not require additional funding except for the prohibition on uploading lists of registered voters to the SAVE Program in bulk. The use of bulk uploads is an extremely valuable tool as ELECT can receive up to 2,000 SAVE verifications within one month. If ELECT is prohibited from using the bulk upload ELECT staff individually would have to key in documents for lookup. ELECT current staffing could not support this function and ELECT would need at a minimum one position at a fully loaded personnel cost of \$109,756 plus ancillary cost of \$12,925. This will be a continuing cost.
