168 maintain the database in a cost-effective manner and to facilitate uniformity among various all-payer claims
169 databases of other states and specification of data fields to be included in the submitted claims, consistent
170 with such national standards, allowing for exemptions when submitting entities do not collect the specified
171 data or pay on a per-claim basis, such exemption process to be managed by the advisory committee created
172 pursuant to subsection E;

173 6. Does not disclose or report provider-specific, facility-specific, or carrier-specific reimbursement

180 full transparency to providers or health plans of the alternative methodology used.

181 E. The Commissioner shall establish an advisory committee to assist in the formation and operation of the

195 chairman of the board of directors of the nonprofit organization, the Commissioner of Insurance, the Director
196 of the Department of Medical Assistance Services, the Director of the Department of Human Resource
197 Management, or their designees, shall serve ex officio.

198 In appointing members to the advisory committee, the Commissioner shall adopt reasonable measures to
199 select representatives in a manner that provides balanced representation within and among the appointments
200 and that any representative appointed is without any actual or apparent conflict of interest, including conflicts
201 of interest created by virtue of the individual's employer's corporate affiliations or ownership interests.

202 The nonprofit organization shall provide the advisory committee with details at least annually on the use
203 and disclosure of All-Payer Claims Database data, including reports developed by the nonprofit organization;
204 details on methods used to extract, transform, and load data; and efforts to protect patient privacy and data
205 security.

206 The meetings of the advisory committee shall be open to the public.

207 F. The Commissioner shall establish a data release committee to review and approve requests for access to
208 data. The data release committee shall consist of the Commissioner or his designee, and upon

211 practitioner; a representative from a hospital with a background in administration, analytics, or research; and

212 a representative with a demonstrated record of advocating health care issues on behalf of consumers. In
213 making its recommendations, the advisory committee shall adopt reasonable measures to select
214 representatives in a manner that provides balanced representation within and among the appointments and
215 that any representative appointed is without any actual or apparent conflict of interest, including conflicts of
216 interest created by virtue of the individual's employer's corporate affiliations or ownership interests. The data
217 release committee shall ensure that (i) all data approvals are consistent with the purposes of the All-Payer
218 Claims Database as provided in subsection A; (ii) all data approvals comply with applicable state and federal
219 privacy laws and state and federal laws regarding the exchange of price and cost information to protect the
220 confidentiality of the data and encourage a competitive marketplace for health care services; and (iii) the level
221 of detail, as provided in subsection H, is appropriate for each request and is accompanied by a standardized
222 data use agreement.

223 G. The nonprofit organization shall implement the All-Payer Claims Database, consistent with the
224 provisions of this chapter, to include:

225 1. The reporting of data that can be used to improve public health surveillance and population health,
226 including reports on (i) injuries; (ii) chronic diseases, including but not limited to asthma, diabetes,
227 cardiovascular disease, hypertension, arthritis, and cancer; (iii) health conditions of pregnant women, infants,
228 and children; and (iv) geographic and demographic information for use in community health assessment,
229 prevention education, and public health improvement. This data shall be developed in a format that allows
230 comparison of information in the All-Payer Claims Database with other nationwide data programs and that
231 allows employers to compare their employee health plans statewide and between and among regions of the
232 Commonwealth and nationally.

233 2. The reporting of data that payers, providers, and health care purchasers, including employers and
234 consumers, may use to compare quality and efficiency of health care, including development of information
235 on utilization patterns and information that permits comparison of health plans and providers statewide
236 between and among regions of the Commonwealth. The advisory committee created pursuant to subsection E
237 shall make recommendations to the nonprofit organization on the appropriate level of specificity of reported
238 data in order to protect patient privacy and to accurately attribute services and resource utilization rates to
239 providers.

240 3. The reporting of data that permits design and evaluation of alternative delivery and payment models.

241 4. The reporting and release of data consistent with the purposes of the All-Payer Claims Database as set
242 forth in subsection A as determined to be appropriate by the data release committee created pursuant to
243 subsection F.

245 without the approval of the data release committee. Upon approval, the nonprofit organization may provide
246 data or access to data at levels of detail that may include (i) aggregate reports, which are defined as data
247 releases with all observation counts greater than 10; (ii) de-identified data sets that meet the standard set forth
248 in 45 C.F.R. § 164.514(a); and (iii) limited data sets that comply with the National Institutes of Health
249 guidelines for release of personal health information.

250 I. Reporting of data shall not commence until such data has been processed and verified at levels of
251 accuracy consistent with existing nonprofit organization data standards. Prior to public release of any report
252 specifically naming any provider or payer, or public reports in which an individual provider or payers
253 represents 60 percent or more of the data, the nonprofit organization shall provide affected entities with
254 notice of the pending report and allow for a 30-day period of review to ensure accuracy. During this period,
255 affected entities may seek explanations of results and correction of data that they prove to be inaccurate. The
256 nonprofit organization shall make these corrections prior to any public release of the report. At the end of the
257 review period, upon completion of all necessary corrections, the report may be released. For the purposes of
258 this subsection, "public release" means the release of any report to the general public and does not include the
259 preparation of reports for, or use of the All-Payer Claims Database by, organizations that have been approved
260 for access by the data release committee and have entered into written agreements with the nonprofit
261 organization.

262 J. The Commissioner and the nonprofit organization shall consider and recommend, as appropriate,
263 integration of new data sources into the All-Payer Claims Database, based on the findings and
264 recommendations of the advisory committee.

265 K. Information acquired pursuant to this section shall be confidential and shall be exempt from disclosure
266 by the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The reporting and release of data pursuant
267 to this section shall comply with all state and federal privacy laws and state and federal laws regarding the
268 exchange of price and cost information to protect the confidentiality of the data and encourage a competitive
269 marketplace for health care services.

270 L. No person shall assess costs or charge a fee to any health care practitioner related to formation or
271 operation of the All-Payer Claims Database. However, a reasonable fee may be charged to health care
272 practitioners who voluntarily access the All-Payer Claims Database for purposes other than data verification.

273 M. As used in this section, "provider" means a hospital or physician as defined in this chapter or any other
274 health care practitioner licensed, certified, or authorized under state law to provide covered services
275 represented in claims reported pursuant to this section.

276 N. The Commissioner, in consultation with the board of directors of the nonprofit organization, shall
277 develop short-term and long-term funding strategies for the operation of the All-Payer Claims Database to
278 provide necessary funding in excess of any budget appropriation by the Commonwealth.

279 O. The nonprofit organization, the Department of Health, the Department of Medical Assistance Services,
280 and the Bureau of Insurance shall have access to data reported by the All-Payer Claims Database pursuant to
281 this section at no cost for the purposes of public health improvement research and activities.

282 P. Each employer that maintains an ERISA plan may opt-in to allow a third-party administer or other
283 entity to submit data to the All-Payer Claims Database. For any such employer that opts-in, the third-party
284 administrator or other entity shall (i) submit data for the next reporting period after the opt-in and all future
285 reporting periods until the employer opts-out and (ii) include data from any such employer as part of its data
286 submission, if any, otherwise required by this section. Such an employer may opt-out at any time but shall
287 provide written notice to the third-party administrator or other entity of its decision at least 30 days prior to
288 the start of the next reporting period. No employer that maintains an ERISA plan shall be required to opt-in to
289 data submission to the All-Payer Claims Database, and no third-party administrator or other entity shall be
290 required to submit claims processed before it was contracted to provide services. Each third-party
291 administrator or other entity providing claim administration services for an employer shall submit annually to
292 the nonprofit organization by January 31 of each year a list of the ERISA plans whose employer has opted-in
293 to data submission to the All-Payer Claims Database and a list identifying all employers that maintain an
294 ERISA plan with Virginia employees for which it provides claim administration services. Such information
295 submitted shall be considered proprietary and shall be exempt from disclosure by the Virginia Freedom of
296 Information Act (§ 2.2-3700 et seq.).

297 Q. Any data release shall make use of a masked proxy reimbursement amount, for which the methodology
298 is publicly available and approved by the data release committee except that the Department may request that
299 the nonprofit organization generate the following reports based on actual reimbursement amounts: (i) the total

300 cost burden of a disease, chronic disease, injury, or health condition across the state, health planning region,
301 health planning district, county, or city, provided that the total cost shall be an aggregate amount
302 encompassing costs attributable to all data suppliers and not identifying or attributable to any individual
303 provider, and (ii) any analyses to determine the average reimbursement that is paid for health care services
304 that may include inpatient and outpatient diagnostic services, surgical services or the treatment of certain
305 conditions or diseases. Any additional report of analysis based on actual reimbursement amounts shall require
306 the approval of the data release committee.

307 R. The nonprofit organization shall ensure the timely reporting of information by private data suppliers to
308 meet the requirements of this section. The nonprofit organization shall notify private data suppliers of any
309 applicable reporting deadlines. The nonprofit shall notify, in writing, a private data supplier of a failure to
310 meet a reporting deadline, and that failure to respond within two weeks following receipt of the written notice
311 may result in a penalty. The Board may assess a civil penalty of up to \$1,000 per week per violation, not to
312 exceed a total of \$50,000 per violation, against a private data supplier that fails, within its determination, to
313 make a good faith effort to provide the requested information within two weeks following receipt of the
314 written notice required by this subsection. Civil penalties assessed under this subsection shall be maintained
315 by the Department and used for the ongoing improvement of the All-Payer Claims Database.

332 reflecting "generally accepted standards of mental health or substance use disorder care" include
333 peer-reviewed scientific studies and medical literature, consensus guidelines and recommendations of
334 nonprofit health care provider professional associations and specialty societies, and nationally recognized
335 clinical practice guidelines, including patient placement criteria, service intensity assessment instruments,
336 clinical practice guidelines, guidelines and recommendations of federal government agencies, and drug

453 beyond the first five of such visits covered in any policy or contract year shall be at least 50 percent.

454 3. For the purpose of this ~~section~~ subsection, medication management visits shall be covered in the same

459 count toward the outpatient visit benefit maximum set forth in the policy or contract.

460 5. This subsection shall not apply to any excepted benefits policy as defined in § 38.2-3431, nor to
