

HOUSE BILL NO. 173
AMENDMENT IN THE NATURE OF A SUBSTITUTE
(Proposed by the House Committee on Public Safety
on _____)
(Patron Prior to Substitute—Delegate Anthony)

A BILL to amend and reenact § 53.1-1.2 of the Code of Virginia, relating to state correctional facilities; visitation policies; annual report.

Be it enacted by the General Assembly of Virginia:

1. That § 53.1-1.2 of the Code of Virginia is amended and reenacted as follows:

§ 53.1-1.2. Visitation policies.

A. As used in this section:

"Long-distance visitor" means an approved visitor of a correctional facility whose primary residence is located at least 150 miles from the correctional facility, as measured by driving distance.

"Revocation" means a permanent loss of visitation privileges following multiple serious violations verified through reliable evidence, including documentation of such violations.

"Security requirements" means objectively documented procedures necessary to prevent escape, violence, or contraband introduction and does not include procedures used primarily for administrative convenience.

B. The Department shall make reasonable efforts, consistent with facility safety and security, to provide each eligible incarcerated individual the opportunity for in-person visitation with approved visitors that is no less than the maximum safe seating capacity of the in-person visitation at each facility.

C. The Department shall provide extended or additional visitation access for long-distance visitors. Such visits shall be scheduled for an extended duration, subject to available space and security requirements.

D. Each in-person visit shall last a minimum of two hours unless shortened at the request of the visitor or incarcerated person, or in response to an active security event. Visitors shall not be required to end their visit at the end of the minimum time if seating capacity permits continued visitation. The Department shall maintain visitation seating and scheduling capacity equivalent to the maximum safe seating capacity of the in-person visitation at each facility. In addition to currently permitted contact at the beginning and end of visitation, visitors shall be allowed to hold hands during visitation.

E. Visitation privileges may be suspended only for conduct that occurs during visitation that presents a direct and substantial threat to the physical safety of participants or the security of the facility. Visitation shall not be denied or suspended based solely upon an individual's confinement status, including placement in restrictive housing, unless such visitation presents a documented and ongoing security risk. Visitation shall

33 not be revoked or suspended based solely upon disciplinary or administrative reasons unrelated to visitation,
34 including confinement status, nonviolent infractions, or substance-screening results.

35 Each suspension shall be supported by written documentation specifying the conduct, date, time, and
36 nature of the security threat. Suspension shall not exceed 60 consecutive days for a first violation or 120
37 consecutive days for a repeated violation within 12 months.

38 The Department shall provide written notice of suspension to the incarcerated individual and the affected
39 visitor within five business days. Such notice shall describe the conduct and specify the duration of
40 suspension. The incarcerated individual or visitor may appeal any suspension within 15 calendar days. The
41 Department may integrate this visitation appeal process within its established inmate grievance procedures.
42 Appeals shall be reviewed and decided by an official who was not involved in the initial decision to suspend
43 visitation privileges within 20 calendar days of submission of the appeal. Visitation privileges shall be
44 automatically restored at the conclusion of the suspension period unless an appeal upholds the original
45 finding for such suspension. Permanent revocation of visitation privileges shall occur only upon multiple, but
46 no less than three, documented serious violations verified through reliable evidence.

47 F. Upon statewide implementation of the program, the Department shall collect and annually publish
48 data, disaggregated by facility and by month, that includes the (i) total number of in-person visits; (ii)
49 number of unique visitors and the age of each visitor; (iii) reasons for visit denials, suspensions, or
50 terminations; (iv) average visit duration; (v) capacity and utilization rates; and (vi) results of visitor and
51 correctional facility inmate surveys conducted not more than once each year. Data shall, to the extent
52 practicable, be derived from existing management-information systems and records maintained by the
53 Department. The Department shall submit an annual report containing the enumerated data to the Chairs of
54 the House Committee on Public Safety, the Senate Committee on Rehabilitation and Social Services, and the
55 House and Senate Committees for Courts of Justice. The report shall be made publicly available on the
56 Department's website.

57 G. The following procedures regarding individuals who are physically present at a state correctional
58 facility for the purpose of visiting a prisoner shall apply:

59 1. Upon entry into a state correctional facility, visitors shall be informed of the items that they are not
60 permitted to bring into the facility and the items that they are permitted to bring into the facility.

61 2. If an item that is otherwise legal for the visitor to possess is not permitted in the facility, the item may
62 be placed in the possession of facility employees, if the facility is able to store such item, for the duration of
63 the visit and returned to the visitor upon leaving the facility.

64 3. If equipment is available, visitors shall be scanned or wanded by an electronic scanning or detection
65 device, or both.

66 4. If detector canines are available, visitors shall be subjected to a detector canine search.

67 5. If the detector canine search, scanning, or wanding does not indicate any contraband and the visitor is
68 otherwise eligible to visit, the visitor shall be allowed a visit with the prisoner that allows personal contact.

69 6. If the detector canine search, scanning, or wanding indicates the possibility of contraband, the visitor
70 shall have the option of consenting to a search of his person. If the visitor does not consent to a search of his
71 person after only a detector canine search indicates the possibility of contraband and the visitor is otherwise
72 eligible to visit, he shall be allowed a visit with the prisoner that does not allow personal contact. If the visitor
73 does not consent to a search of his person after scanning or wanding indicates the possibility of contraband,
74 the Department may deny the visitor entry into the facility in accordance with the operating procedures
75 regarding visiting privileges as authorized by § 53.1-30. *The discovery of contraband shall trigger a facility*
76 *investigative review regardless of the source of such contraband. If contraband entry is found to originate*
77 *from facility staff or internal operations, visitation privileges of uninvolved individuals shall not be restricted*
78 *absent direct evidence of the individual's involvement.*

79 7. A visitor shall be allowed to leave the correctional facility and discontinue the search process prior to
80 the discovery of contraband. A visitor shall not be barred from future visits because he stops a search prior to
81 the discovery of contraband or refuses to consent to a search of his person, including refusing to consent to a
82 strip search or a search of any body cavity. Correctional facility personnel shall not use the search procedure
83 or search results as a threat to bar future visits. The superintendent, warden, or other official in charge of the
84 facility shall ensure that correctional facility personnel do not use the search procedure or search results as a
85 threat to bar future visits.

86 *H. The provisions of this section shall only apply to any entity empowered by law to review correctional*
87 *operations for state correctional facilities.*

88 **2. That the Department of Corrections (the Department) shall convene a work group that consists of**
89 **relevant stakeholders, including (i) regular visitors of Department prisoners and prisoners receiving**
90 **regular visits; (ii) advocates, including advocates from Sistas in Prison Reform, UpToDate Inside**
91 **Virginia, Brilliance Behind Bars, Bending the Bars Foundation, The Humanization Project, and the**
92 **American Civil Liberties Union of Virginia; (iii) national research firms; (iv) mental health**
93 **professionals; (v) trauma-informed counselors; (vi) social scientists; (vii) attorneys; and (viii)**

94 corrections staff and administrators. The work group shall consider and develop practical policy and
95 legislative recommendations for the following goals: (a) balancing the encouragement of appropriate
96 physical affection between visitors and prisoners with security needs; (b) implementing a feasible
97 family visitation enhancement program that offers access to additional in-person visitation days and
98 hours as achievable incentives while maintaining baseline levels of in-person visitation access to all
99 prisoners and their loved ones; (c) implementing a plan that allows for extended meals with families
100 during in-person visitation at and around selected holidays, where visitors may bring or purchase
101 special meals; (d) implementing a policy to allow for additional visitation access for minor and
102 infrequent visitors; and (e) developing a plan to return in-person visitation to 2019 levels. The work
103 group shall report its findings and specific legislative and policy recommendations to the General
104 Assembly by October 1, 2026.

105 3. That the provisions of subsection F of § 53.1-1.2 of the Code of Virginia, as amended by this act, shall
106 become effective on July 1, 2027.
