Fiscal Analysis:

Under current law, it is a Class 1 misdemeanor for any person under 18 years of age to possess or transport a handgun or assault firearm in the Commonwealth. Exceptions apply when the person is in their home or on their own property; on the property of a parent, grandparent, or legal guardian; or on the property of another person with the property owner's prior permission and the consent of a parent or legal guardian. Additional exceptions include possession or transportation while traveling to or participating in a shooting range or firearms education class, while engaged in hunting or traveling to a hunting area, or while performing official duties as a member of the United States Armed Forces or the National Guard. The proposal expands § 18.2-

308.7 to prohibit any person under 21 years of age from purchasing a handgun or assault firearm anywhere within the Commonwealth. A third or subsequent violation under § 18.2-311.2, including a violation of this provision, is punishable as a Class 6 felony.

Anyone convicted of a Class 1 misdemeanor is subject to a sentence of up to 12 months in jail and a fine of not more than \$2,500, either or both. Anyone convicted of a Class 6 felony is subject to a term of imprisonment of not less than one year nor more than five years, or in the discretion of the jury or the court trying the case without a jury, confinement in jail for not more than 12 months and a fine of not more than \$2,500, either or both. Therefore, this proposal could result in an increase in the number of persons sentenced to jail or prison. There is not enough information available to reliably estimate the increase in jail population as a result of this proposal. However, any increase in jail population will increase costs to the state. The Commonwealth currently pays the localities \$5.00 a day for each misdemeanor or otherwise local-responsible prisoner held in a jail and \$15.00 a day for each state-responsible prisoner. It also funds a considerable portion of the jails' operating costs, e.g., correctional officers. The state's share of these costs on a per prisoner, per day basis varies from locality to locality. However, according to the Compensation Board's most recent Jail Cost Report (November 2025), the estimated total state support for local jails averaged \$58.25 per inmate, per day in FY 2024.

Due to the lack of data, the Virginia Criminal Sentencing Commission has concluded, pursuant to §30-19.1:4 of the Code of Virginia, that the impact of the proposed legislation on state-responsible (prison) bed space cannot be determined. In such cases, Chapter 725, 2025 Acts of Assembly, requires that a minimum impact of \$50,000 be assigned to the bill.

Other: None.
