House Amendments in [ ] - February 16, 2026

A BILL to amend and reenact § 22.1-253.13:3, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to Standards of Quality; [ ~~school accountability and accreditation state accountability~~ ] ; Standards of Learning assessment expedited retake scores.

Patron Prior to Engrossment—Delegate O'Quinn

Referred to Committee on Education

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:3, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:3. (Effective until July 1, 2026) Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include (i) student outcome and growth measures, (ii) requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, (iii) administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary education programs such as library and media services, (vi) requirements for graduation from high school, (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the Commonwealth.

The Board shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board's regulations establishing standards for accreditation shall ensure that the accreditation process is transparent and based on objective measurements and that any appeal of the accreditation status of a school is heard and decided by the Board.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all schools in the local school division annually in public session.

The Board shall establish a review process to assist any school that does not meet the standards established by the Board. The relevant school board shall report the results of such review and any annual progress reports in public session and shall implement any actions identified through such review and utilize them for improvement planning.

The Board shall establish a corrective action plan process for any school that does not meet the standards established by the Board. Such process shall require (a) each school board to submit a corrective action plan for any school in the local school division that does not meet the standards established by the Board and (b) any school board that fails to demonstrate progress in developing or implementing any such corrective action plan to enter into a memorandum of understanding with the Board.

When the Board determines through its review process that the failure of schools within a division to meet the standards established by the Board is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level academic review. After the conduct of such review and within the time specified by the Board, each school board shall enter into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division meet the standards established by the Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools

59 within the division to meet the standards established by the Board, the Board may return the plan to the local  
60 school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action  
61 plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

62 B. The Superintendent shall develop, subject to revision by the Board, criteria for determining and  
63 recognizing educational performance in the Commonwealth's local school divisions and public schools. The  
64 portion of such criteria that measures individual student growth shall become an integral part of the  
65 accreditation process for schools in which any grade level in the grade three through eight range is taught.  
66 The Superintendent shall annually report to the Board on the accreditation status of all school divisions and  
67 schools. Such report shall include an analysis of the strengths and weaknesses of public education programs  
68 in the various school divisions in Virginia and recommendations to the General Assembly for further  
69 enhancing student learning uniformly across the Commonwealth. In recognizing educational performance  
70 and individual student growth in the school divisions, the Board shall include consideration of special school  
71 division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and  
72 International Baccalaureate courses, and participation in academic year Governor's Schools.

73 The Superintendent shall assist local school boards in the implementation of action plans for increasing  
74 educational performance and individual student growth in those school divisions and schools that are  
75 identified as not meeting the approved criteria. The Superintendent shall monitor the implementation of and  
76 report to the Board on the effectiveness of the corrective actions taken to improve the educational  
77 performance in such school divisions and schools.

78 C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to  
79 determine the level of achievement of the Standards of Learning objectives by all students. Such assessments  
80 shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of  
81 Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a  
82 regular analysis and validation process for these assessments. In lieu of a one-time end-of-year assessment,  
83 the Board shall establish, for the purpose of providing measures of individual student growth over the course  
84 of the school year, a through-year growth assessment system, aligned with the Standards of Learning, for the  
85 administration of reading and mathematics assessments in grades three through eight. Such through-year  
86 growth assessment system shall include at least one beginning-of-year, one mid-year, and one end-of-year  
87 assessment in order to provide individual student growth scores over the course of the school year, but the  
88 total time scheduled for taking all such assessments shall not exceed 150 percent of the time scheduled for  
89 taking a single end-of-year proficiency assessment. The Department shall ensure adequate training for  
90 teachers and principals on how to interpret and use student growth data from such assessments to improve  
91 reading and mathematics instruction in grades three through eight throughout the school year. With such  
92 funds and content as are available for such purpose, such through-year growth assessment system shall  
93 provide accurate measurement of a student's performance, through computer adaptive technology, using test  
94 items at, below, and above the student's grade level as necessary.

95 The Board shall also provide the option of industry certification and state licensure examinations as a  
96 student-selected credit.

97 The Department shall make available to school divisions Standards of Learning assessments typically  
98 administered by high schools by December 1 of the school year in which such assessments are to be  
99 administered or when newly developed assessments are available, whichever is later.

100 The Board shall make publicly available such assessments in a timely manner and as soon as practicable  
101 following the administration of such tests, so long as the release of such assessments does not compromise  
102 test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the  
103 ability to test students on demand and provide immediate results in the web-based assessment system.

104 The Board shall prescribe alternative methods of Standards of Learning assessment administration for  
105 children with disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to  
106 demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program  
107 team shall make the final determination as to whether an alternative method of administration is appropriate  
108 for the student.

109 The Board shall include in the student outcome and growth measures that are required by the standards of  
110 accreditation the required assessments for various grade levels and classes, including the completion of the  
111 alternative assessments implemented by each local school board, in accordance with the Standards of  
112 Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics,  
113 science, and history and social science and may be integrated to include multiple subject areas.

114 The Standards of Learning assessments administered to students in grades three through eight shall not  
115 exceed (i) reading and mathematics in grades three and four; (ii) reading, mathematics, and science in grade  
116 five; (iii) reading and mathematics in grades six and seven; (iv) reading, writing, and mathematics in grade  
117 eight; (v) science after the student receives instruction in the grade six science, life science, and physical  
118 science Standards of Learning and before the student completes grade eight; and (vi) Virginia Studies and  
119 Civics and Economics once each at the grade levels deemed appropriate by each local school board. The  
120 reading and mathematics assessments administered to students in grades three through eight shall be through-

121 year growth assessments.

122 Each school board shall annually certify that it has provided instruction and administered an alternative  
 123 assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of  
 124 Learning subject area in which a Standards of Learning assessment was not administered during the school  
 125 year. Such guidelines shall (a) incorporate options for age-appropriate, authentic performance assessments  
 126 and portfolios with rubrics and other methodologies designed to ensure that students are making adequate  
 127 academic progress in the subject area and that the Standards of Learning content is being taught; (b) permit  
 128 and encourage integrated assessments that include multiple subject areas; and (c) emphasize collaboration  
 129 between teachers to administer and substantiate the assessments and the professional development of teachers  
 130 to enable them to make the best use of alternative assessments.

131 Local school divisions shall provide targeted mathematics remediation and intervention to students in  
 132 grades six through eight who show computational deficiencies as demonstrated by their individual  
 133 performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-  
 134 calculator computational skills.

135 The Department shall award recovery credit to any student in grades three through eight who performs  
 136 below grade level on a Standards of Learning assessment in English reading or mathematics, receives  
 137 remediation, and subsequently retakes and performs at or above grade level on such an assessment, including  
 138 any such student who subsequently retakes such an assessment on an expedited basis.

139 In addition, to assess the educational progress of students, the Board shall (1) develop appropriate  
 140 assessments, which may include criterion-referenced tests and other assessment instruments that may be used  
 141 by classroom teachers; (2) select appropriate industry certification and state licensure examinations; and (3)  
 142 prescribe and provide measures, which may include nationally normed tests to be used to identify students  
 143 who score in the bottom quartile at selected grade levels.

144 The Standards of Learning requirements, including all related assessments, shall be waived for any  
 145 student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to  
 146 § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by  
 147 the Board or in an adult basic education program or an adult secondary education program to obtain the high  
 148 school diploma or a high school equivalency certificate.

149 The Department shall develop processes for informing school divisions of changes in the Standards of  
 150 Learning.

151 The Board may adopt special provisions related to the administration and use of any Standards of  
 152 Learning test or tests in a content area as applied to accreditation ratings for any period during which the  
 153 Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide  
 154 administration of such tests, the Board shall provide notice to local school boards regarding such special  
 155 provisions.

156 The Board shall not include in its calculation of the passage rate for a Standards of Learning assessment or  
 157 the level of achievement of the Standards of Learning objectives for an individual student growth assessment  
 158 for the purposes of state accountability any student whose parent has decided to not have his child take such  
 159 Standards of Learning assessment, unless such exclusions would result in the school's not meeting any  
 160 required state or federal participation rate.

161 *The Board shall, in its calculation of the passage rate for a Standards of Learning assessment or the level*  
 162 *of achievement of the Standards of Learning objectives for an individual student growth assessment for the*  
 163 *purposes of state accountability [ and school accreditation ] ratings, for any student who retakes an*  
 164 *assessment on an expedited basis and receives a passing score, include the passing score received on such*  
 165 *expedited retake and exclude the score such student received on the assessment taken during the regular*  
 166 *assessment administration period.*

167 D. The Board may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action  
 168 pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test  
 169 results.

170 The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security,  
 171 unauthorized alteration, or improper administration of tests, including the exclusion of students from testing  
 172 who are required to be assessed, by local school board employees responsible for the distribution or  
 173 administration of the tests.

174 Records and other information furnished to or prepared by the Board during the conduct of a review or  
 175 investigation may be withheld pursuant to subdivision 10 of § 2.2-3705.3. However, this section shall not  
 176 prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of  
 177 permitting such board or superintendent to consider or to take personnel action with regard to an employee or  
 178 (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the  
 179 identity of any person making a complaint or supplying information to the Board on a confidential basis and  
 180 (b) does not compromise the security of any test mandated by the Board. Any local school board or division  
 181 superintendent receiving such records or other information shall, upon taking personnel action against a  
 182 relevant employee, place copies of such records or information relating to the specific employee in such

183 person's personnel file.

184 Notwithstanding any other provision of state law, no test or examination authorized by this section,  
185 including the Standards of Learning assessments, shall be released or required to be released as minimum  
186 competency tests, if, in the judgment of the Board, such release would breach the security of such test or  
187 examination or deplete the bank of questions necessary to construct future secure tests.

188 E. With such funds as may be appropriated, the Board may provide, through an agreement with vendors  
189 having the technical capacity and expertise to provide computerized tests and assessments, and test  
190 construction, analysis, and security, for (i) web-based computerized tests and assessments, including  
191 computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after  
192 remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

193 F. To assess the educational progress of students as individuals and as groups, each local school board  
194 shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data,  
195 such as industry certification and state licensure examinations, to evaluate student progress and to determine  
196 educational performance. Each local school shall require the administration of appropriate assessments to  
197 students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards  
198 of Learning assessments, the local school board's alternative assessments, and the National Assessment of  
199 Educational Progress state-by-state assessment. Each school board shall provide teachers, parents, principals,  
200 and other school leaders with their students' results on any Standards of Learning assessment or Virginia  
201 Alternate Assessment Program assessment as soon as practicable after the assessment is administered. Each  
202 school board shall analyze and report annually, in compliance with any criteria that may be established by the  
203 Board, the results from industry certification examinations and the Standards of Learning assessments to the  
204 public.

205 The Board shall include requirements for the reporting of the Standards of Learning assessment data,  
206 regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance  
207 Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia  
208 assessment program as appropriate and shall be reported to the public within three months of their receipt.  
209 These reports (i) shall be posted on the portion of the Department's website relating to the School  
210 Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may  
211 include the National Assessment of Educational Progress state-by-state assessment.

212 G. Each local school division superintendent shall regularly review the division's submission of data and  
213 reports required by state and federal law and regulations to ensure that all information is accurate and  
214 submitted in a timely fashion. The Superintendent shall provide a list of the required reports and data to  
215 division superintendents annually. The status of compliance with this requirement shall be included in the  
216 Board's annual report to the Governor and the General Assembly as required by § 22.1-18.

217 H. Any school board may request the Board for release from state regulations or, on behalf of one or more  
218 of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance  
219 of one or more of its schools as authorized for certain other schools by the Standards for Accreditation  
220 pursuant to 8VAC20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements  
221 may be granted by the Board based on submission of a request from the division superintendent and chairman  
222 of the local school board. The Board may grant, for a period up to five years, a waiver of regulatory  
223 requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The  
224 school board shall provide in its waiver request a description of how the releases from state regulations are  
225 designed to increase the quality of instruction and improve the achievement of students in the affected school  
226 or schools. The Department shall provide (a) guidance to any local school division that requests releases from  
227 state regulations and (b) information about opportunities to form partnerships with other agencies or entities  
228 to any local school division in which the school or schools granted releases from state regulations have  
229 demonstrated improvement in the quality of instruction and the achievement of students.

230 The Board may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based  
231 on submission of a request from the division superintendent and chairman of the local school board,  
232 permitting the local school board to assign instructional personnel to the schools with the greatest needs, so  
233 long as the school division employs a sufficient number of personnel divisionwide to meet the total number  
234 required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of  
235 § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from  
236 specific Standards of Quality staffing standards are designed to increase the quality of instruction and  
237 improve the achievement of students in the affected school or schools. The waivers may be renewed in up to  
238 five-year increments, or revoked, based on student achievement results in the affected school or schools.

239 **§ 22.1-253.13:3. (Effective July 1, 2026) Standard 3. Accreditation, other standards, assessments,**  
240 **and releases from state regulations.**

241 A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the  
242 Administrative Process Act (§ 2.2-4000 et seq.), which shall include (i) student outcome and growth  
243 measures, (ii) requirements and guidelines for instructional programs and for the integration of educational  
244 technology into such instructional programs, (iii) administrative and instructional staffing levels and

245 positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary  
 246 education programs such as library and media services, (vi) requirements for graduation from high school,  
 247 (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the  
 248 Commonwealth.

249 The Board shall promulgate regulations establishing standards for accreditation of public virtual schools  
 250 under the authority of the local school board that enroll students full time.

251 The Board's regulations establishing standards for accreditation shall ensure that the accreditation process  
 252 is transparent and based on objective measurements and that any appeal of the accreditation status of a school  
 253 is heard and decided by the Board.

254 The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board  
 255 shall review the accreditation status of a school once every three years if the school has been fully accredited  
 256 for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the  
 257 school for each individual year within that triennial review period. If the Board finds that the school would  
 258 have been accredited every year of that triennial review period the Board shall accredit the school for another  
 259 three years. The Board may review the accreditation status of any other school once every two years or once  
 260 every three years, provided that any school that receives a multiyear accreditation status other than full  
 261 accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the  
 262 period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to  
 263 the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting  
 264 requirements.

265 Each local school board shall maintain schools that are fully accredited pursuant to the standards for  
 266 accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all  
 267 schools in the local school division annually in public session.

268 The Board shall establish a review process to assist any school that does not meet the standards  
 269 established by the Board. The relevant school board shall report the results of such review and any annual  
 270 progress reports in public session and shall implement any actions identified through such review and utilize  
 271 them for improvement planning.

272 The Board shall establish a corrective action plan process for any school that does not meet the standards  
 273 established by the Board. Such process shall require (a) each school board to submit a corrective action plan  
 274 for any school in the local school division that does not meet the standards established by the Board and (b)  
 275 any school board that fails to demonstrate progress in developing or implementing any such corrective action  
 276 plan to enter into a memorandum of understanding with the Board.

277 When the Board determines through its review process that the failure of schools within a division to meet  
 278 the standards established by the Board is related to division-level failure to implement the Standards of  
 279 Quality or other division-level action or inaction, the Board may require a division-level academic review.  
 280 After the conduct of such review and within the time specified by the Board, each school board shall enter  
 281 into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval  
 282 a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a  
 283 schedule designed to ensure that schools within its school division meet the standards established by the  
 284 Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools  
 285 within the division to meet the standards established by the Board, the Board may return the plan to the local  
 286 school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action  
 287 plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

288 B. The Superintendent shall develop, subject to revision by the Board, criteria for determining and  
 289 recognizing educational performance in the Commonwealth's local school divisions and public schools. The  
 290 portion of such criteria that measures individual student growth shall become an integral part of the  
 291 accreditation process for schools in which any grade level in the grade three through eight range is taught.  
 292 The Superintendent shall annually report to the Board on the accreditation status of all school divisions and  
 293 schools. Such report shall include an analysis of the strengths and weaknesses of public education programs  
 294 in the various school divisions in Virginia and recommendations to the General Assembly for further  
 295 enhancing student learning uniformly across the Commonwealth. In recognizing educational performance  
 296 and individual student growth in the school divisions, the Board shall include consideration of special school  
 297 division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and  
 298 International Baccalaureate courses, and participation in academic year Governor's Schools.

299 The Superintendent shall assist local school boards in the implementation of action plans for increasing  
 300 educational performance and individual student growth in those school divisions and schools that are  
 301 identified as not meeting the approved criteria, including, when applicable, providing assistance with the  
 302 review, grant, and monitoring process set forth in subdivision K 4 of § 22.1-253.13:1. The Superintendent  
 303 shall monitor the implementation of and report to the Board on the effectiveness of the corrective actions  
 304 taken to improve the educational performance in such school divisions and schools.

305 C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to  
 306 determine the level of achievement of the Standards of Learning objectives by all students in grades three

307 through 12. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and  
308 skills related to the Standards of Learning being assessed. In prescribing such assessment methods, the Board  
309 shall:

310 1. With the assistance of independent testing experts, conduct a regular analysis and validation process for  
311 these assessments;

312 2. In lieu of a one-time end-of-year assessment, establish, for the purpose of providing measures of  
313 individual student growth over the course of the school year, a through-year growth assessment system,  
314 aligned with the Standards of Learning, for the administration of reading and mathematics assessments in  
315 grades three through eight. Such through-year growth assessment system shall include at least one beginning-  
316 of-year, one mid-year, and one end-of-year assessment in order to provide individual student growth scores  
317 over the course of the school year, but the total time scheduled for taking all such assessments shall not  
318 exceed 150 percent of the time scheduled for taking a single end-of-year proficiency assessment. The  
319 Department shall ensure adequate training for teachers and principals on how to interpret and use student  
320 growth data from such assessments to improve reading and mathematics instruction in grades three through  
321 eight throughout the school year. With such funds and content as are available for such purpose, such  
322 through-year growth assessment system shall provide accurate measurement of a student's performance,  
323 through computer adaptive technology, using test items at, below, and above the student's grade level as  
324 necessary;

325 3. Provide the option of industry certification and state licensure examinations as a student-selected credit;

326 4. Make available to school divisions Standards of Learning assessments typically administered by high  
327 schools by December 1 of the school year in which such assessments are to be administered or when newly  
328 developed assessments are available, whichever is later;

329 5. Make publicly available such assessments in a timely manner and as soon as practicable following the  
330 administration of such tests, so long as the release of such assessments does not compromise test security or  
331 deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test  
332 students on demand and provide immediate results in the web-based assessment system;

333 6. Prescribe alternative methods of Standards of Learning assessment administration for children with  
334 disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to demonstrate  
335 achievement of the Standards of Learning. An eligible student's Individual Education Program team shall  
336 make the final determination as to whether an alternative method of administration is appropriate for the  
337 student;

338 7. To assess the educational progress of students, (i) develop appropriate assessments, which may include  
339 criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (ii) select  
340 appropriate industry certification and state licensure examinations; and (iii) prescribe and provide measures,  
341 which may include nationally normed tests to be used to identify students who score in the bottom quartile at  
342 selected grade levels;

343 8. Not include in its calculation of the passage rate for a Standards of Learning assessment or the level of  
344 achievement of the Standards of Learning objectives for an individual student growth assessment for the  
345 purposes of state accountability any student whose parent has decided to not have his child take such  
346 Standards of Learning assessment, unless such exclusions would result in the school's not meeting any  
347 required state or federal participation rate;

562 required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of  
563 § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from
