Bill Number: HB390 ER

Patron: Askew

Bill Title: Habitat Policy Oversight Committee; established, membership, powers and duties, report.

Bill Summary: Establishes the Habitat Policy Oversight Committee within the Marine Resources Commission to advise the Commission and the Habitat Management Division of the Commission on policies within their jurisdiction and to support the Commission's coastal resilience efforts. The bill establishes the powers and duties of the Committee, establishes how the members of the Committee are appointed, and provides that the Committee shall have 11 voting members and two ex-officio members.

Budget Amendment Necessary: No

Items Impacted: N/A

Explanation: This bill involves the Marine Resources Commission (MRC); however, no budget action is required. See Fiscal Analysis section, below.

Fiscal Summary: This bill establishes an additional advisory committee within MRC. Members of the committee will receive reimbursement for their actual expenses. It is anticipated that this bill may result in an increase in workload for MRC, the Secretary of Natural and Historic Resources (the Secretary), Old Dominion University (ODU), the Virginia Institute of Marine Science (VIMS), and the Department of Environmental Quality (DEQ). At this time, any expenditure impact is indeterminate but anticipated to be absorbable.

Fiscal Analysis: This fiscal impact estimate is final. This bill establishes, within the Commission, the Habitat Policy Oversight Committee to advise MRC on policies that support the agency's coastal resilience efforts. MRC and its Habitat Management Division must consider Committee recommendations in decision-making. The Division must also report to the Commission on Committee activities and how its recommendations have informed policy and program development, as well as consult with the Committee on all updates or revisions to policy matters not requiring formal Commission approval.

Under the provisions of this bill, the Division would be required to establish and attend Committee meetings, prepare meeting minutes, present recommendations to the Commission, consult with the Committee on certain policy changes, and evaluate Committee recommendations. MRC anticipates an increase in workload as a result of this legislation. However, this bill, as amended, does not specify a number of required meetings for the Committee; therefore, the workload impact associated with this bill is indeterminate. MRC estimates that each Committee meeting will require 36 hours of staff time for associated work.

The Habitat Policy Oversight Committee would consist of 11 voting members appointed by the Secretary of Natural and Historic Resources (the Secretary), which include an Associate Commissioner of the Marine Resources Commission, the Virginia Institute of Marine Science (VIMS), an employee of the Institute for Coastal Adaptation and Resilience at Old Dominion University (ODU), and a member of the Virginia Coastal Zone Management Program at the Department of Environmental Quality (DEQ). The Deputy Commissioner

and Chief of the Habitat Management Division at the Commission must also serve as nonvoting ex officio members. It is anticipated that any fiscal impact on the Secretary, VIMS, ODU, and DEQ as stakeholder agencies that may result from this bill can be absorbed within agencies' existing resources.

Other: None.
