

## Fiscal Impact Statement for Proposed Legislation

*Virginia State Corporation Commission*

**Published:** March 12, 2026

### Senate Bill 508

**Version:** Enrolled

**Patron:** VanValkenburg

**Title:** Electric utilities; surplus interconnection service sites.

**Summary as Passed Senate:** Directs Appalachian Power and Dominion Energy Virginia to undertake a comprehensive assessment of available interconnection capacity at each such utility's existing and planned intermittent electric generation facilities located in the Commonwealth. The bill directs such utilities to establish pilot programs for energy storage resources and solar generation facilities that utilize surplus interconnection service, as defined in the bill, including a request for proposals. The bill requires such utilities to submit the results of such requests for proposals as part of their 2027 plans and petitions for approval for the development of new solar and onshore wind generation capacity, which plans are required under existing law.

**Effective Date(s):** July 1, 2026

**Amendment Necessary:**  Budget, Item ###  
 Technical, see *Technical Note* below  
 None, see *Other Comments*

---

### *Fiscal Summary*

The State Corporation Commission does not anticipate a fiscal impact. Please see other comments below.

### *Fiscal Analysis*

---

### Revenue

None.

---

### Expenditures

See *Other Comments* below.

---

### Change in FTE

None.

---

### Other Comments

The bill requires the SCC to “approve” an independent auditor. This fiscal impact statement is prepared with the assumption that the SCC does not hire, nor incur the cost of an independent auditor, rather the Phase I and Phase II

utilities will be required to hire and incur the cost of the independent auditor that the SCC will then be required to approve.

## **Technical Note**

---

None.
