A prototype or production sample of each type, version, or model of electronic skill gaming device being operated in the Commonwealth shall be tested by an independent testing laboratory approved by the Director to ensure its integrity, level of skill required, and proper working order. This evaluation shall include a review of installed software periodically within a timeframe established by the Director.

The independent testing laboratory's software may be embedded within the game software, utilize an interface port to communicate with the device, or require the removal of device media for external verification.

D. Along with the prototype or production sample of the electronic skill gaming device, the manufacturer shall provide the following information concerning the electronic skill gaming device to the independent testing laboratory:

Likewise, after a player pays to begin gameplay, the player is afforded the opportunity to earn more than the amount paid to commence play;
3. There is no hard-coded minimum or maximum payout percentage for such game;
4. The game software does not incorporate any reflexive, adaptive play or compensating algorithm making the game more difficult when it detects a highly skilled player or when the skill video game's payout percentage exceeds 100 percent;
5. An average player can learn to score and win effectively on the game;
6. The game displays to a player the criteria used in selecting winners and the rules of play are available for viewing at any time prior to or following the time during which the game is in play;
7. The amusement game software and system records and maintains accurate records of (i) a minimum of a 10-game outcome recall and (ii) a minimum of a 10-voucher recall of prize payouts from the game;
8. The game is equipped with accounting meters displaying at least eight digits with six digits to the left of the decimal;

2043 10. The game is equipped to display in an easily identifiable manner the software version and hardware
2044 components of the approved terminal.

2045 The Board shall rely on this report in evaluating whether the electronic skill gaming device shall be
2046 approved pursuant to the provisions of this chapter.

2047 F. If at any time a manufacturer makes a substantive change to game play for any electronic skill gaming
2048 device that has previously been approved by the Director, such manufacturer shall resubmit the electronic
2049 skill gaming device to the Director in a manner prescribed by Board regulation.

2050 G. The manufacturer licensee shall pay the cost of the independent testing laboratory's review and testing,
2051 and the reports of the same shall be delivered to the licensee and the Director.

2052 **§ 58.1-4215. Minimum requirements of electronic skill gaming devices.**

2056 so that a reasonable person could understand the game prior to playing a game;

2255 commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary
2256 appropriation cannot be determined for periods of imprisonment in state adult correctional facilities;
2257 therefore, Chapter 725 of the Acts of Assembly of 2025 requires the Virginia Criminal Sentencing
2258 Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4 of the Code of
2259 Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of
