Be it enacted by the General Assembly of Virginia:

1. § 1. *That the Department of Medical Assistance Services (the Department) shall seek the necessary permission from the Centers for Medicare and Medicaid Services to oversee the activities of Medicaid-enrolled services facilitators. Such oversight shall include verification that services facilitators provide services, including eligibility determinations, in a timely manner, as determined by the Department. The Department shall amend its regulations to provide that a member shall maintain enrollment in medical assistance programs when such enrollment would lapse as a result of failure of a services facilitator to conduct an eligibility determination and such member otherwise meets the requirements for eligibility for medical assistance. The Department shall submit state plan amendments, apply for waivers, and update provider manuals or guidance as necessary to implement the provisions of this act.*
