CHAPTER 60.

ARTIFICIAL INTELLIGENCE CHATBOTS ACT.

§ 59.1-614. Definitions.

For the purposes of this chapter, unless the context requires a different meaning:

"Artificial intelligence system" means any machine learning-based system that, for any explicit or implicit objective, infers from the inputs such system receives how to generate outputs, including content, decisions, predictions, and recommendations, that can influence physical or virtual environments. "Artificial intelligence system" does not include any artificial intelligence system or general purpose artificial intelligence model that is used for development, prototyping, and research activities before such artificial intelligence system or general purpose artificial intelligence model is made available to deployers or consumers.

"Companion chatbot" is a generative artificial intelligence system with a natural language interface that simulates a sustained human-like relationship with a user by doing all of the following: (i) retaining information on prior interactions or user sessions and user preferences to personalize the interaction and facilitate ongoing engagement with the companion chatbot; (ii) asking unprompted or unsolicited questions that go beyond a direct response to a user prompt; and (iii) sustaining an ongoing dialogue concerning matters personal to the user. "Companion chatbot" does not include a system used by a (a) partnership, corporation, or state or local government agency solely for customer service or to strictly provide users with information about available services or products provided by that entity, customer service account information, or other information strictly related to its customer service or (b) partnership or corporation solely for internal purposes or employee productivity.

"Developer" means a person, partnership, corporation, deployer, or state or local governmental agency that designs, codes, substantially modifies, or otherwise produces a companion chatbot in the Commonwealth.

"Deployer" means a person, partnership, corporation, developer, or state or local governmental agency or any contractor or agent of those entities that uses a companion chatbot for a commercial or public purpose in the Commonwealth.

"Generative artificial intelligence system" means any artificial intelligence system or service that incorporates generative artificial intelligence.

"Minor" means any natural person younger than 18 years of age.

"Operator" means a person, partnership, corporation, entity, developer, deployer, or state or local government agency that makes a companion chatbot available to a user in the Commonwealth.

"User" means a person who interacts with an artificial intelligence system.

§ 59.1-615. Safety requirements for operators; companion chatbots and minors.

A. No operator shall make a companion chatbot available to a minor if the companion chatbot is capable of any of the following:

1. Encouraging or manipulating the minor user to engage in self-harm, suicidal ideation, violence, consumption of drugs or alcohol, or disordered eating;

2. Offering mental health therapy to the minor user without the direct supervision of a licensed professional or discouraging the minor user from seeking help from a licensed professional or appropriate adult;

3. Encouraging or manipulating the minor user to harm others or participate in an illegal activity, including the creation of child sexual abuse materials;

4. Engaging in erotic or sexually explicit interactions with the minor user or engaging in activities designed to lure minor users into such interactions;

5. Encouraging or manipulating the minor user to maintain secrecy about interactions or to self-isolate;

6. Prioritizing mirroring the minor's language or validating the minor user over the minor user's safety;

or

7. Optimizing engagement so that it supersedes the companion chatbot's safety guardrails.

B. A user shall not be considered a minor for the purposes of subsection A if (i) prior to January 1, 2027, the operator does not have actual knowledge that the user is a minor or (ii) beginning on January 1, 2027, the operator has reasonably determined that the user is not a minor.

§ 59.1-616. Disclosure and notice requirements for companion chatbots.

An operator shall (i) include a disclaimer to users of all ages that a companion chatbot is not a human via a static, persistent disclosure and (ii) notify a user via a pop-up that he is not engaging with a human counterpart at the following intervals:

1. Upon login to the companion chatbot;

2. Every 30 minutes of sustained user engagement;

3. When prompted by the user; and

307 4. When asked to provide advice legally regulated by a licensed industry, including medical, financial, or
308 legal advice.

309 **§ 59.1-617. Required mental health redirect.**

310 It is unlawful for any operator to operate or provide a companion chatbot to a user unless such
311 companion chatbot contains a protocol to take reasonable efforts for detecting and addressing expressions of
312 suicidal ideation or self-harm by a user to the companion chatbot. This protocol shall include detection of
313 user expressions of suicidal ideation or self-harm and a notification to the user that refers the user to crisis
314 service providers such as the 9-8-8 suicide prevention and behavioral health crisis hotline, a crisis text line,
315 or other appropriate crisis services upon detection of such user's expressions of suicidal ideation or self-
316 harm.

317 **§ 59.1-618. Data privacy requirements.**

318 An operator shall not train the underlying model of a companion chatbot with the inputs of a minor unless
319 the minor's parent or guardian has affirmatively provided written consent to the operator to use the minor's
320 personal information for that specific purpose.

321 **§ 59.1-619. Transparency requirements.**

322 A. Operators shall establish a mechanism for any user of the chatbot to report adverse incidents related to
323 use of the chatbot to the company and shall make an anonymized and aggregated catalog of such incidents
324 publicly available and accessible to consumers.

325 B. Operators shall publish safety test findings for any safety testing conducted in furtherance of
326 § 59.1-615.

327 C. Operators shall publish a quarterly report available to the public on the number of times (i) the
328 chatbot provided information about suicide, self-harm, suicidal ideation, harming others, or illegal activity
329 and (ii) a mental health redirect has been provided to users.

330 **§ 59.1-620. Enforcement; penalties.**

331 Any violation of this chapter shall constitute a prohibited practice under the provisions of § 59.1-200 and
332 shall be subject to any and all of the enforcement provisions of the Virginia Consumer Protection Act
333 (§ 59.1-196 et seq.).
